Reports

All of the reports that are in the existing Cash System as well as the CJS reports will be rewritten and available in the new system. For efficiency reasons some of the reports may be combined into one report.

A feature available in the new reports includes the ability to drill down on a specific data group, this is the ability to expand and collapse detail within a group. Click the plus sign (+) next to the group 'Payment Method' and you can see the detail for each 'Payment Type'.

+ Payment Method	Amount	#Pmts	%#Pmts
CASH	16,806.50	69	44.231 %
CHECK	44,543.00	87	55.769 %
Grand Total:	\$61,349.50	156	100.00 %

Search

Searching in the new system has been enhanced.

Commonly used search criteria such as start/end dates, Case Numbers, Service Codes, and Receipt #'s are available under the basic search function. An advanced search function has been included on many screens. The advanced search will provide the user with a multitude of choices that will assist in narrowing the search. Examples include, reason code, item #, equal to (=), greater than (>), less than (<).
