

## Bolt-on Applications - Apporved Programs

Last Updated on: October 4, 2012

Created By: Robert Roll

County / Agency	Program Description	Program Purpose	Databases / Data Sources	Contact Person
APSD	APSD Data Mining and Analysis	To utilize the APETS SQL Database to pull data into SPSS (Statistical software) for research and analysis.	APETS Production (Replication) APETS Test	JL Doyle
APSD	APSD Crystal Reporting Service	To utilize the APETS SQL Database to develop and deploy Ad Hoc reports utilizing existing Crystal Reports for the Adult Probation Departments use.	APETS Production (Replication) APETS Test	JL Doyle
Cochise	Crystal	Run/ create reports for Clerk of Superior Court, Court Administration, and all Limited Jurisdiction courts	court1h sqldb09	Casey Streeter - Furnier
Maricopa - Probation	APD Online	APD Online provides a local read-only copy of APETS to the APD user group to significantly reduce consumption of AOC/APETS bandwidth.	apets_prod apets_train	Chris Holly
Maricopa - Probation	Maricopa County Adult Probation	Create and perform ad hoc reports/reporting on APETS SQL Server	APETS_PROD on SQL22 Replication	Main Randy Tirado Back up Jaqua Davi Mark Hendershot Alison Cook-Davis Jennifer Ferguson
Pima - Juvenile	Pima County Juvenile Court Ad Hoc Reporting	Use replicated data as data source for PCJCC ad hoc reports hosted on local report server.	JOLTSaz Replication	Steven Chang

Pima - Juvenile	Pima County Juvenile Court IT Auditing and Research	Allow PCJCC technical staff to browse replicated data for auditing and troubleshooting.	JOLTSaz Replication	Steven Chang
Pima - Juvenile	Pima County Juvenile Court Detention Risk Assessment Indicator Tool	Detention Risk Assessment Indicator (RAI) tool is an automated standardized tool used during intake to determine if the juvenile should be detained.	JOLTSaz Replication	Steven Chang
Pima - Juvenile	Pima County Juvenile Court Research Data Extracts	Provide ad hoc raw data vis SSIS to internal staff and collaborating partners (e.g., Superior Court, University of Arizona, contracted evaluation firms, etc.) for research and evaluation projects.	JOLTSaz Replication	Steven Chang
Pima - Juvenile	Pima County Juvenile Court Data Source Extract	Create data extract to use as data source for low-usage (<= 5 users per application) non-critical local applications. Extract run scheduled for up to 4X/Day	JOLTSaz Replication	Steven Chang
Pima - Juvenile	Pima County Juvenile Court External Agency Web Reports	Web application allows users from criminal justice agencies (Superior Court, County Attorney, Law Enforcement, etc.) to search for juveniles in JOLTSaz db and generate canned reports on juveniles that are found.	JOLTSaz Replication	Steven Chang
Pima - Probation	APO Kiosk	The APO Kiosk allows clients to check in without a face-to-face meeting with their probation officer. They can update data such as contact information through the program, and in order for this to occur the current data has to be imported from APETS. Following PO approval the updates are posted back to APETS, but through an intermediate application created by AOC, not directly.	Apets_prod replicated database (159.233.83.57).	Kristie Jones

Pima - Probation	Defendant Matching	This program compares client data imported from APETS with data imported from AZTEC in order to alert probation officers when one of their clients has law enforcement contact.	Apets_prod replicated database (159.233.83.57).	Kristie Jones
Pima - Probation	Roloweb	Law enforcement agencies such as the Pima County Sheriff's Department and Tucson Police Department access this web site to get information on Pima County probationers.	Apets_prod replicated database (159.233.83.57).	Kristie Jones
Pima - Probation	Digital Photo Processor	The program allows us to crop client photos, save them to the network, and add records for them in the clnt_photos table so the files can be tracked through APETS.	Apets_prod production database (159.233.83.56) and apets_prod replicated database (159.233.83.57).	Jay Dennis
Pima - Probation	ApetsReports	This is the primary Pima County Adult Probation reporting application. It's also used to update a handful of APETS tables. We're currently moving from an old, FoxPro-based version of the app, but until this is finished we're running the two versions concurrently.	Apets_prod production database (159.233.83.56) apets_prod replicated database (159.233.83.57).	Kristie Jones
Pinal - AJACS	Pinal County Clerk of the Court Administrative Reports	Data reporting for Court users in Pinal County	AJACS Test Database (3.7 and future release candidates)	Thom Watson
Pinal - AJACS	Various - Primarily for "Admin Reports" and "Calendar Reports"	Over the past 3 years, Pinal COSC has been utilizing a single ODBC for any data connection to our AJACS Replication database.	SQLDB09 (Replication)	Thom Watson
Pinal - AJACS	File Tracker	Provides Pinal SC staff with the ability to track physical case files. The majority of the data calls are to local SQL databases, but there is a small, less frequently used call to SQLDB09 for case title information.	SQLDB09 (Replication)	Thom Watson

Pinal - AJACS	"Admin Reports"	Provides a dashboard / Summary review of recent AJACS activity, as well as a listing of available data reports.	SQLDB09 (Replication)	Thom Watson
Pinal - AJACS	VA Print (slated for retirement)	Initial purpose was to query AJACS for Minute Entry status (Draft vs. Finalized) & Print out to the Pinal County Attorney Victim Services unit when the entries are from CR or JV cases.	SQLDB09 (Replication)	Thom Watson
Pinal - AJACS	ME Distribution	Distributes (via email) Minute Entries that are completed by COSC staff. This replaces the functionality offered within AJACS and provides the ability to track emails that are rejected and/or returned, as well as other features.	SQLDB09 (Replication)	Thom Watson
Pinal - AJACS	None - Used internally by Pinal COSC IT department	Request ODBC for data mining and single use data report generation	SQLDB09 (Replication)	Thom Watson
Pinal - AJACS	ME Email Application	Used by staff of the Pinal COSC staff to queue minute entries for distribution via email.	SQLDB09 (Replication)	Thom Watson
Pinal - AJACS	Next Hearing	Provides line staff and management with a simple dashboard view of AJACS data. This includes the next case hearing, current physical file location, general party information and amounts owed. All in a single screen	SQLDB09 (Replication)	Thom Watson
Pinal - AJACS	Video Calendar	Pull AJACS calendar information which will be presented in public video displays.	SQLDB09 (Replication)	Thom Watson
Pinal - AJACS	AIC (Appeals Information)	Transmits electronic case data to the State Court of Appeals	SQLDB09 (Replication)	Thom Watson
Pinal - AJACS	SCI (Satellite Case Information)	Transmits Case information from the Pinal SC Satellite offices	SQLDB09 (Replication)	Thom Watson

Pinal - AJACS	Calendar Reports	Pinal COSC staff generate calendar reports which are distributed to internal and external customers numerous times per week	SQLDB09 (Replication)	Thom Watson
Pinal - AJACS	Untitled, ODBC access request	QA and verification reports for upgrading our local instance of OnBase to 9.2	AJACS Production Support (Pinal County GJ)	Thom Watson
Yavapai - AJACS	SSRS/Crystal Reports	AdHoc Reporting	AJACS SC1300 Replication GJ Test	Valerie Burns Shelly Bacon Court Administration
Mohave - AJACS	AJACS	Access Mohave Production Support Database to ensure scripts are correct in test before moving into production	Mohave Production Support (Mohave Test)	Kyle Rimel
