

## Comments on EA Standards Table from TAC Dist List Members

Date Rec'd	Received from	Comment Content	Response
1/26/16	J Price	Remove all of Architecture's references to open source tools/applications. It sends the wrong message	Karl concurs, need to give list to Steele of candidate items to make sure all are identified correctly for removal
	SB list of candidate products for removal	AngularJS, Erlang, Swift, Xamarin, Git, Razor, Roslyn, MongoDB, Redis, JSON+REST, Docker, NServiceBus, EventStore	Done at Karl's OK. 1/28
2/12/16	RBlair	Patch Management row needs to include SCCM	
	RBlair	Security Scanning Products needs to include "Nexpose"	
2/16/16	Kyle	SQL 2014 belongs in Mainstream per discussion at last TAC	It has been there since Nov. 9.
2/23/16	Rod Franklin	Replace VPN w/ ipsec, 3DES with AnyConnectSSL for ≥Win7	Retire any ipsec/anyconnect
	Rod	Says "Trend" should be "Tren" for Server Anti-Virus product, wha??	SB didn't make change
