Sirs;

I believe I am in need of your help, as I cannot think of anyone else who would have the authority to correct the problem that has been perpetrated on me.

I am a resident of [] for the past 17 yrs. and probably will spend the rest of my life here. I am A [] [] here in town and have been for the duration of my residency.

Recently I had a problem with a new home owner that hired me to do some work for him on his newly purchased home. When I could not collect my rightfully due hourly wages I filed a claim with the [] court.

The case was set for []

With witness' on their way to testify on my behalf I figured I had the case in the basket.

I was wrong. With only 5 working days to go the homeowner went to the court house on the [] and filed for a continuance until [] It is now evident that he was granted the new trial date as I was notified at 11:30am on [] just hours before court time, of the change in the date.

I was told when I filed the case that if any changes were to be made they had to be at least 10 working days before the date and had to meet with the approval of both parties. If these are the rules for the plaintiff/ then why are not the same rules applied to the defendant ?

Now who is going to reimburse my witness for their expenses as they came a long way for nothing and I don't know if they will be able to return in [] This should not be legal and I feel some action should be taken against the [] court and all parties concerned, meaning who ever authorized the continuance; [] the court clerk that held my notice until the [] before calling me; and especially Judge [] who is supposed to be in charge of the court and its proceedings.

I sincerely hope you can take a little time for me and see why my rights have been so badly abused by this court system.

We probably will find I am not the only one to have been wronged by this court.

The person I am suing is a self proclaimed legal begal and probably planned this as he knew I had people coming that would destroy his case and this way he could mess up my case. He will still lose when I get him in court but I can't believe he could convince our court to violate the laws and go along with his request.

I am looking forward to your response and do hope you will help me.
