CJC-06-202 7/27/06 RE Total disregard for The Code of Judicial Conduct by City Court Judges and Superior Court Judges and I have Burden of Proof. Burden of Proof: Hearing Transcripts Orders in all of their varieties which I have come to realize mean nothing, they are a joke. informed me in the past that I would need to be assigned a Federal Antomey in order to prosecute these Judges. If that is the case you had better assign me one. Because I deserve and intend to seek damages for these Judges, what I view as both illegal and unethical behavior. for what he did is violation of Code #3. was 16, CAC for children 15 yrs or younger, Miscarriage of Justice against me for what he neglecting to following through with his own court orders as of scaling the website. Neglecting to inform me that just because the website was sealed that everything still appeared on the Justice Court's Clercks' Ofice data base and would therefore still be picked up when background checks were done. The Judge neglected to tell me that when the year was up the only real way I could clear my name was if my attorney and I appealed to Superior Court to have the 2 DVs &CACs and 3 HAs Expunged from my record. However, neither the Judge nor my Attorney ever made any mention of this to me. I learned all of this information from calls through out the years and learning to ask the right questions from the Justice Court's Clerk's Office. And for Judge to have the nerve to raise a stink when I contacted him directly when I learned that he had never sealed the website in and went complain to my attorney well I think this makes him an unaccountable total ass. And then after getting a totally malicious and contrived Harassment Order from that says she has approached children and has been accused of being a child molester years ago as petitions for crimes against children and domestic it states in her folder from her violence". I knew immediately to go to the website and I was correct, DVCAC was back on the website and I do not know how long it had been back up their. I directly and contacted Judge who had fired me because she did a bad job. Again not one word of accountability, regret, apology nothing from the Judge. He whipped the slate clean but the HAs reappeared. How does this happen and this time look what was done to me. When I filled out the paper work for my hearing with my family in \_\_\_\_ I told the clerk and showed her my evidence she told me she would do an investigation. When I called back this July since no one got back to me with the result of the investigation I was put on bold for ever and then told there would be no investigation and yelled at by the that
