I believe the Judge violated my constitutional rights by not allowing an attorney considering I'm a title 13 which means mentally incompetent and cannot understand things fully. It also spoke of how I felt pressured and verbally of her actions made me feel intimidated. We represented once prior to being labeled SMI & a patient of [redacted] usually in prior cases someone from [redacted] is present, she fully could not give me an explanation of why I'm not entitled to a representative. Her disposition was very defensive, angry, almost like a grudge was formed and she had already made her mind up on my case. I feel the case was in favor considerably to time up and the honesty of the police officers not reading us our Miranda rights. I was in appreciation of this respect & honesty for his badge. He didn't want to arrest me but the other officers wanted to. The other person involved in his case was dismissed before getting to trial which might make a difference in my case. Now, I'm also asked for an attorney in my appeal. I filed [redacted] also had the first court appearance with Judge [redacted] & [redacted] as prosecutor then everything switched at next court appearance. I feel justice needs be served properly and I feel this is an example of improper and perfect example of the injustice I've seen in the courts for 8 years. Please help me God Bless you [redacted]
