

State of Arizona  
COMMISSION ON JUDICIAL CONDUCT

---

Disposition of Complaint 07-172

---

Complainant: No. 1313410625A

Judge: No. 1313410625B

---

**ORDER**

The commission reviewed the complaint filed in this matter and found no ethical misconduct on the part of the judge. Although the recording of the hearing was incomplete because the microphone switch was inadvertently left off, the judge did not violate the Code of Judicial Conduct. The complainant's other allegations involve questions of national security that are outside the commission's jurisdiction.

The complaint is dismissed pursuant to Rules 16(a) and 23(a).

Dated: August 28, 2007.

FOR THE COMMISSION

/s/ Keith Stott  
Executive Director

Copies of this order were mailed  
to the complainant and the judge  
on August 28, 2007.

*This order may not be used as a basis for disqualification of a judge.*

State of Arizona  
Commission on Judicial Conduct  
1501 West Washington, Suite 229  
Phoenix, Arizona 85007

Judicial Misconduct – Request for Expedited Investigation Due to National Security Issues

Commission Members:

I write to request an expedited investigation of willful judicial misconduct that brings the judiciary into disrepute.

Judge's name: [redacted] (Justice Court)

Case No. [redacted] Appeal pending.

I am the real party in interest – a key point of Judge [redacted] misconduct. The real case in dispute is [redacted] [Case No.: [redacted]] for fraud, breach of contract, misrepresentation and conspiracy in [redacted] Superior Court [redacted]

Attorneys: [redacted]

Witnesses who observed the judge's conduct:

[redacted]

Complaint against Judge [redacted]

I am the real party in interest in a Justice Court matter filed against [redacted] by parties seeking to avoid their liabilities to me. I accepted service for [redacted] on [redacted] at a residence in [redacted] Arizona owned by [redacted] I have resided in this residence since [redacted] as part of my [redacted] agreement with [redacted] and her mother's corporation, [redacted] (her mother, [redacted] died in [redacted])

[redacted] is a professional colleague who has been sharing the [redacted] residence intermittently since [redacted] while assisting with research and analysis for a series of books chronicling my 25-year experience with serial criminal stalking in which [redacted] played a 12-year role. [redacted] was served notice of a forcible detainer two days after [redacted] (now [redacted])

June 12, 2007

CJC-07-172

principal shareholder of [redacted] was served on my litigation pending in the Superior Court for fraud, breach of contract, misrepresentation and conspiracy.

[redacted] left Arizona on [redacted]. He did not return until the hearing on [redacted] when Judge [redacted] was informed by counsel [redacted] that I am the real party in interest.

Judge [redacted] was first informed of that fact on [redacted] when the same parties perpetrated the same fraud on the same court. A forcible detainer was served on [redacted] on [redacted] two hours after I retrieved from the Post Office a notice that my [redacted] letter to [redacted] (identifying her liabilities) was returned after she declined to accept receipt at her residence in [redacted] Arizona. [My letter to [redacted] and the U.S. Postal Service tracking form are attached.]

To serve [redacted] required 3-1/2 months for my lawsuit filed in the [redacted] Superior Court in [redacted] on [redacted]. [redacted] was located [redacted] by a [redacted] constable in a [redacted] residence located approximately four blocks from the constable's office.

A motion to dismiss was carried over from [redacted] and then to [redacted] when Judge [redacted] convened the Justice Court hearing in a courtroom normally used by the Superior Court. Before the proceeding commenced, [redacted] and watched Judge [redacted] check the recording device. Contrary to standard courtroom procedure, she chose not to be assisted by a clerk. Key parties seeking to avoid their liabilities in my lawsuit (i.e., [redacted] and her daughter, [redacted]) repeatedly perjured themselves in that hearing.

Disturbed by the conduct of Judge [redacted] and counsel (see below) in light of that perjured testimony, I notified the State Bar of Arizona on [redacted] to ask that a monitor attend Judge [redacted] hearing of [redacted] Judge [redacted] ruling of [redacted] accepted clearly perjured testimony in support of an oral lease with [redacted] without considering written documentation in rebuttal that she admitted into evidence. Instead, she left that evidence in the courtroom while she retired to chambers to consider her ruling. I wrote to Judge [redacted] on [redacted] documenting her complicity in aiding an ongoing fraud perpetrated on me by [redacted] since we first met in [redacted].

Five business days later, Judge [redacted] dated a court order (attached) stating that the court record of the hearing featuring perjured testimony was "not existent." The court clerk alleges that the recorder was running but the recording was blank. See my enclosed [redacted] letter to [redacted] Police Officer [redacted] requesting a criminal investigation and suggesting key lines of questioning to be pursued by anyone undertaking a good faith investigation.

My letter to Judge [redacted] of [redacted] (attached) documented the perjury of the parties and called to Judge [redacted] attention the national security implications of her ruling, as documented on a CD that accompanied my [redacted] letter to [redacted]. Judge [redacted] accepted those materials into evidence on [redacted] yet chose not to review them before issuing her ruling a few minutes later.

I describe below components of the evidentiary trail submitted in support of my request that the Commission recommend the removal of Judge [redacted] from the [redacted] Courts for willful misconduct that brings the judiciary into disrepute.

June 12, 2007

CJC-07-172

- [redacted] Letter to Judge [redacted] – protesting the process that informed her ruling of [redacted] and citing procedural abuses in her courtroom. Attached to this letter is the text of my [redacted] email to the State Bar of Arizona. Only after Judge [redacted] receipt of my [redacted] letter did a court record evidencing this perjury become “not existent.”
- [redacted] minute order from Judge [redacted] proclaiming “the record is not existent.”
- [redacted] Summary of Ongoing Criminal Stalking – note the role of counsel in possible complicity along with Judge [redacted] in perpetrating this fraud on the court (and on me). See also pp. 22-27 for a summary of similar situations I have encountered in other jurisdictions over the past 25 years.
- [redacted] Letter to Judge [redacted] – the disappearance of perjured testimony on which her ruling relied is evidence of her complicity, particularly as the court record disappeared after my [redacted] letter detailing why she could not explain her ruling – i.e., unless the perjured testimony on which she relied became “not existent.”
- [redacted] Letter to [redacted] Police – requesting a criminal investigation. A similar request was lodged with the [redacted] Sheriff and with the U.S. Attorney [redacted]

I request that the Commission study the enclosed materials and, based on the broader context in which Judge [redacted] ruling was rendered (including its national security implications), proceed with an expedited investigation of these time-sensitive matters. To assist the Commission in its deliberations, I include a copy of my [redacted] letter to [redacted] along with the accompanying exhibits, including a CD that included excerpts from publications on which [redacted] and I are collaborating. Note in my letter to [redacted]

- Affidavits from several of those people to whom [redacted] asserted her two decades of employment by the [redacted]
- Letter of [redacted] from Prime Minister [redacted] to [redacted] referring these matters to the Foreign Office.
- Letter of [redacted] from U.S. Department of State responding to a Freedom of Information Act request re myself.
- Letter of [redacted] from Canadian Department of Foreign affairs re my briefing there following my return from Baghdad in [redacted]
- Letter of [redacted] from Governor [redacted] “regarding national security matters.”
- On CD, please review (under “Exhibits re AAA-Enabled Fraud”):
  - [redacted] re Freedom of Information Act Request, [redacted]
  - “War in Iraq Could Have Been Prevented” – note that [redacted] hosted [redacted] at her home in [redacted] [redacted] and I visited Iraq in [redacted] returning with a practical plan for removing Saddam Hussein without this war or an insurgency.
  - “The Indonesian Connection” – note the consistency with which I was drawn into circumstances where geopolitical manipulations were being pre-staged.

As documented in the accompanying exhibits, the behavior of Judge [redacted] mirrors corruption I encountered in other jurisdictions featuring the complicity of counsel and compromised jurists. As the evidence suggests that this courtroom scenario was orchestrated with the goal of obscuring an evidentiary trail proving ongoing federal capital crimes, the willful misconduct of

June 12, 2007

CJC-07-172

Judge [ ] brings the judiciary into disrepute by her deploying the authority of law to displace the rule of law, a *modus operandi* chronicled in numerous venues over the past 25 years.

When perjured testimony becomes "not existent" five business days after a judge receives documentation confirming that the jurist cannot explain a ruling, that judge's activities are not only improper, the jurist also creates the appearance of impropriety. If, as the facts suggest, Judge [ ] was collaborating with [ ] counsel [ ] and others (yet to be identified) to obscure an evidentiary trail (and/or to defer prompt engagement with facts) essential to national security, she also undermined the integrity of the judiciary in the course of aiding and abetting treason while this nation is at war.

I also enclose a representative sampling of responses from [ ]. The most recent letter [ ] was sent in response to my letter of [ ] in which I included a copy of my [ ] letter to Judge [ ] as an example of how the authority of law is corrupted in the interest of advancing an extremist agenda. I direct your attention to the responses of [ ] as both letters deal directly with these matters. Note [ ] referral to the Home Office (in charge of terrorism-related activities) of those matters related to [ ] including her claim that, while employed by the [ ] [ ] she worked closely with the [ ] liaison to the U.S. Congress.

If, as the facts suggest, Judge [ ] disposition of this case was determined before she considered the evidence, this jurist also failed to honor the principle of judicial neutrality essential to the integrity of the judicial process. If, as the facts confirm, Judge [ ] rendered a ruling without considering key documents accepted into evidence, her lack of diligence reflects poorly on the judiciary and undermines the public's confidence that jurists rule based on the facts and the law. If, as the evidence suggests, Judge [ ] conspired with others in rendering this ruling, she undermined the public's confidence in the independence of the judiciary.

The totality of the circumstances suggests that the Commission is obliged to complete its investigation and make its recommendations at the earliest possible moment. If, in the process of this investigation, Judge [ ] does not resign, I request that public hearings be convened as soon as possible to consider evidence about this jurist's conduct in light of the implications for national security while this nation is at war.

As I am confident that an informed public will insist that this process result in Judge [ ] removal, I request that the Commission immediately make this complaint available for public inspection. To preclude any attempt to keep these matters from public scrutiny, I will ensure that these documents become a part of the public record by filing this complaint as part of the court record in my Superior Court matter pending before Judge [ ].

Both the facts and my 25-year experience suggest that this Justice Court proceeding was staged to deny the public an opportunity to grasp the systemic nature of the criminality proven by my firsthand experience. The abuse of the authority of law on display in [ ] is illustrative of how the rule of law has been displaced nationwide by those skilled at displacing facts (and the truth) with what people can be led to *believe* is true.

Those complicit in orchestrating the circumstances I encountered in [ ] needed to ensure that [ ] perjury became "not existent." Then court-approved procedure could be deployed to preempt the truth, enabling the lie to prevail by relying on the public's belief in the authority of law and the integrity of the judicial process. In spite of the facts, Judge [ ] "believed" perjured parties in relying on an oral lease with [ ]

This elected jurist's corruption at the local level mirrors the corruption that led us to war in Iraq when elected leaders at the national level were led to *believe* in the fixed intelligence that Iraq had weapons of mass destruction and substantive ties to Al Qaeda. The *modus operandi* deployed at the international level mirrors the *modus operandi* used in [ ] at the individual level: the displacement of facts with beliefs.

As I profiled those stalking me over the past 25 years, it became clear that the operatives I encountered traced their common source to the same pro-Israeli networks that conspired to deceive our national leadership into waging war in Iraq. What my experience proves beyond a reasonable doubt is *how* this criminality operates in plain view yet with impunity as those masterful at waging war "by way of deception" (the motto of the Israeli Mossad) deploy manipulated beliefs to displace facts required to govern consistent with the rule of law. Therein lies the perils of the misconduct on display in Judge [ ] courtroom.

Based on the confidence with which the parties brazenly perjured themselves on the record, those complicit in this fraud on the court, including their counsel [ ] were confident that the court record would become "not existent." Had that record survived, subpoenaed phone records of [ ] would have proven their perjury, particularly when combined with written evidence that Judge [ ] excluded or declined to review. Plus my letter to Judge [ ] of [ ] documented her reliance on perjured testimony in her ruling.

Without the testimony of a court clerk present in the courtroom, anyone seeking to reconstitute the perjured testimony of [ ] would have to *believe* in the recollection of [ ] and I as opposed to the recollection of the perjured parties, their counsel and Judge [ ]

Those complicit in staging the circumstances I encountered in this jurisdiction are masters at deploying the psychology of belief in a strategic fashion. The addendum provides examples of how this *modus operandi* has been deployed to systematically displace the rule of law with belief in the (corrupted) authority of law. The success of this sophisticated criminality was on display [ ] when Judge [ ] granted this fraud the appearance of law.

Based on my experience in Arizona dating from the mid-1970s, I do not expect the Commission on Judicial Conduct to do their job. The systemic criminality confirmed by my firsthand experience in this state suggests that only the engaged outrage of an informed public will motivate those sworn to uphold the rule of law. That's why I made this complaint public.
