To the Clerk of the Supreme Court

I'm writing again concerning motion that I submit to the judge that are not accepted and review, but constantly being denied, and one in particular is my motion to suppress, which is vital to my case. I'm currently representing myself in my case and to constantly have motions denied is going against my speedy trial right time frame, such as a motion for an investigator, motion for production of documents (transcripts) and tangible evidence that is in the possession of the prosecutor. These documents or evidence are part of my defense. I'm writing once again for help in my case and if there's anything that can be done please do it or forward this letter to someone who can

Thank You very much

CJC-08-084

I recently wrote a letter concerning judicial misconduct about my present judge and I'm compelled to write again because at present I'm schedule to state trial

I have 15 motions filed in this court with none being responded to especially my motion to suppress in the case. My case number is one count of possession of narcotic drugs. In this case I feel I'm not being treated right which may be because I'm representing myself. This letter is short but it not my last because until I feel that my case is going right I'll be writing you.
