untrue remarks from a unstable stalker concerned me...

even till the morning of the schedule hearing i was refused access to that file and was the file was cited as just caused to persue legal action in court...

i waited outside the courtroom , to see counsel for , i was already aware that no ccr rules were cited for me being there, i was already aware did not deny his clients were engaged in fraud, or that his clients fabricated certain incedents to obtain money, and suppress material fact, to which a third party soley relied on.

AS i patiently waited for my day in court, there was no , nor his witness, the clerks at the office called me and stated the JP just "vacated: your case and that wont be coming, he already knows of the case being vacated?

I asked if called them they all stated no, then you called they said they did not call him or had contact with him at all, then if you did not call and he did not call you then HOW DOES HE KNOW BEFORE ME and i am standing right here" unless the JP and communicated directly prior to a schedule hearing, and that is exactly what happened.

the JP and engaged in private conversation thatas a result of that improper communication resulted in the JP vacate the hearing, further in my opion promices were made and rewards were offered to the JP to violate his oath, and violate my civil rights, and now it appears the JP is so comprimized that he now appears to be a party to a fraudulent scheme,by using his office to cover up that scheme.and engaging in misconduct...

it appears as part of the scam by this JP he would later sent notice after the case been vacated to deny my motion to have access to the file, so i could not have a proper defense, the JP as a result of this conversation prior to a schedule hearing decided would be entitle to 2 hours travel time to a case he did not attend or traveled, he further awarded him 3.3 hours to "research" this case from a person who may or may not even exist, who appears no where on any documents , was witness to nothing and is not even involved in this case, and who does not deny his client fabnricated this case and is engage in fraud, and if you call and ask for this person no one knows her?, and as part of the deal in the backroom this JP made to allowed additional filing after the case was closed and charge me for it..

To make matters as to the total ineptness of this jp and his incompetance he has yet to send me the order of judgement there, not only denying me a proper defense, but denied me my right to appeal,how can i appeal or defend my self when the JP appears to been comprimized and did not have access to the file or denied the right to appeal or even have a hearing, on i literally did nothing wrong but a victem of a fraudulent scheme in which this JP appears to be a party to....

the association sent me a statement amounting to \$2421. i called up and inquired if this was the judgement of the court they o informed it was that i had to pay them directly, i inquire if i should send it thru the court or to ..They without a doubt instructed me that was already paid and that i was to pay them directly, that if i paid they would persue further litigation... they agreed that this was the judgement, - and i would be paid in full..

i sent directly to them \$2421.66 what i was told to be the judgement order amount and that this would finally closed this case..

not so fast.. sent me a letter citing the judgement order in a letter, but not the actaul order, he further sent out letters to credit reporting agencies.. I was upset because sent letters citing a debt is owed when in fact i already paid in full and from his letter i overpaid.

i called up his office and talked to , i informed that i already paid the associaition that they demanded \$2421.66 and they further instruc instructed me DO NOT, DO NOT send it to office, that was to send it directly to them !!!! they told me . that already got paid, i told that they appear to be charging all over again attorney fees ... informed me that they have a "Problem" with double billing, he then stated that if i already paid them that i will have no problem,,, i asked about sending letter s to the credit reporting, he said that if i paid like i said would send a release of satisfaction of lien to the reporting agencies.. My position concerning is that he sent a (letters) to third parties concerning me stating that i owed a debt, when in fact that debt was paid prior to him sending those letters and th that no debt was owed at the time of d sending those letters, further by suppressing material fact to a third party, thru his gross negligence iwas in fact harm, compounded with comprimising a judicial officer as a legal stratigy raises questions of the fraud they are involved in...

NOW morgan cites 'that i did not pay, even though i did, he owns that JP who is for sell, this JP is comprimised and appears to be a party in a fraudulent scam by this mgt company, whereby they enter a pretense, a deception, false statements, or misrepresent the material facts, to suppress or failed to disclosed as in this case to the cridit reporting agencies of no debt, or further to deny access to the file that signed a affadavit as the just caused to persue this case, whereby a third party relays solely upon, now is setting up yet another "pretense" citing that attorney fees were not paid, and i failed to comply with the judgement order when in fact i was left out of the communivcation loop, only and the JP communicated in this case all they saw was my wallet... How much is the JP getting in fraudulent scheme? up to the point and the JP communicated in private without me being presant concerning this case, i had a shedule hearing

and after they had their private discussions the case was vacated, what promises and rewards was the JP to get? as a result of that back room deal they made? why else would the jp vacate the case, if there was just caused prior he could have ruled weeks earlier to vacate and rule in favor of the association, he chose to 5 minutes before the scheduled hearing to vacate and only after he and made a backroom deal....

he then denied access to the very file that only was to have access to that was the very reason we went to court, he gave a generous attorney fees only after he and made a backroom deal to even include 2 hours of travel time when he didn't even leave his office, a phantom to research a case he knows to be fabricated, untrue and fraud, and even allowed to file motions after the case was closed, and after hours.

the pretense to the fraudulent scam or perhaps they as ms heart clearly stated they don't want my "TYPE" of people here, even after being paid, over paid they are now setting up for thousands of more dollars to force me to vacate property, and they already own this JP, and he is involved in it... they are going to go in front of this jp whereby he would force a sell, even though this is a fraudulent scheme, and i never owed a dime. I was denied access to the documents to have a proper defense, but they could use it only, i was denied access to the actual judgement order, i was denied opportunity to appeal because of this JP and ineptness, incompetence and his corruption...

it is also my opinion that be cited for his role in fraudulent scheme and violating the sanctity of the court, for suppressing material facts and misrepresentation, bottom line no court rules were violated nor even mention in the filing, why was i at court, why did i pay out \$2421.66, why am i going to be forced out of my house, it is because of fraud and the misconduct of this JP who is in on it...

please have this attorney barred if just cause exist and the removal of this JP from office would be appropriate as well have the attorney general office investigate the fraudulent activities of court, this appears to be a common practice, and for the record why if i live in shouldnt i be going to, instead of
?, the answer is because they own this JP, he for sale

thank you for your time
