ORDER

The complainant alleged a justice of the peace was prejudiced against him and made improper rulings in a criminal case.

The responsibility of the Commission on Judicial Conduct is to impartially determine if the judge engaged in conduct that violated the provisions of Article 6.1 of the Arizona Constitution or the Code of Judicial Conduct and, if so, to take appropriate disciplinary action. The purpose and authority of the commission is limited to this mission.

The commission does not have jurisdiction to review the legal sufficiency of the judge's rulings. In addition, the commission found no evidence of ethical misconduct and concluded that the judge did not violate the Code in this case. Accordingly, the complaint is dismissed in its entirety, pursuant to Rules 16(a) and 23(a).

Dear to whom it may concern ;

I came today to give you a replay of judge court yesterday. I was not represented by an attorney, other litigants in the court room was represented by one. I have also as of this date, not received a copy of signed appeal from judge I was wrongly convicted without my representation, in the courtroom, to defend me or a court appointed lawyer who left when I was taken out. I was never given my Miranda Rights, which is violation of any court procedure All and any charges filed should be dropped. A sentence of days was handed down to me for missing a sculled court date. I apologized to the court but stayed in jail over the Christmas and New Year's holidays. I being years old and being divorced, thought this being a very harsh decision.

In court the judge, kept saying over and over and over, why didn't you start classes. It became very embarrassing to me and everyone else in the court, of his rudeness to me. Even the prosecutor interrupted the judge, to give more time. The judge then said did you hear that. I said yes. What are you going to say I said judge I am sorry, what are you going to say , I said judge I am sorry, sorry just to get away from his grasp. In the court room you could hear a pin drop with even total silence. Everyone was looking straight ahead when I exited the court room. I feel judge is predicted against me for I am white and every litigant was Hispanic and he also. I have also noticed hostility against me before with much rudeness directed towards me. I feel very uncomfortable with him and I want another judge who would treat me fairly. This is one of the most times in my new life and at my age. I want my Miranda Rights to be respected to and be respected by the courts. These charges should be dropped immediately.
