ORDER

The complainant alleged a superior court judge and a superior court commissioner made improper rulings in a family law matter.

The responsibility of the Commission on Judicial Conduct is to impartially determine if the judicial officers engaged in conduct that violated the provisions of Article 6.1 of the Arizona Constitution or the Code of Judicial Conduct and, if so, to take appropriate disciplinary action. The purpose and authority of the commission is limited to this mission.

The commission does not have jurisdiction to review the legal sufficiency of the judicial officers' rulings. In addition, the commission found no evidence of ethical misconduct and concluded that the judicial officers did not violate the Code in this case. Accordingly, the complaint is dismissed in its entirety, pursuant to Rules 16(a) and 23(a).

I am filing this complaint because i find it completely disrespectful the manner in which my case was handled. From the very beginning the orders made by the judge seemed " " and some of the things she has allowed are absolutely absurd! Firstiv we were referred to the court house due to and existing case after i had the obligation to get a a restraining order against for chasing down for approximately miles erratically and almost not only hitting us but other vehicles. did not take any one else's safety into consideration when he drove erratically with a child and female passenger in his car and was not able to see if my children were with me in mine. Police report was filed for harassment order of protection was filed on () and security cameras were installed outside my home for my family safety. was very much aware of this and dismissed the order of protection and has basically made me feel that she would like to force me to sneak to someone who makes me uncomfortable. When given numerous evidence on how negligent has been with while in his care the judge simply said " ' but did not agree that I should continue to have sole custody and basically baddered me until i was forced to give in to her wants for joint custody even though I have always made all decisions that pertain to and had already agreed to equal parenting time. After all that still felt the need to make me forcefully agree to joint custody, I truly feel that i was taken advantage of due to my lack of knowledge of the judicial system and lack of economic fund to be represented by a lawyer even though I will now be forced to figure out a way to get one because I plan to request a review of my case by another Judge, maybe one that will actually look at the evidence presented instead of just looking at what they want to look at, I gave and to prove lice infestation that started shortly after equal parenting time began and was coming home saying was not being showered or having hair brushed. I provided not only but a letter for my sitter who has watched since that clearly stated how much this is costing me due to OTC treatments and such. To top it of she called a recess approximatelv minutes into our MINUTE scheduled hearing at which we were to discuss parenting time, custody, and child support () and when I asked to have the judge return to discuss the child support she stated that the orders were final but would go and ask the judge. said " ' and i asked that the judge be brought back as I had come prepared to get everything out of the way. Back at the hearing had stated that he didnt believe he should have to pay any child support and had told him he would not be the exception and would have to pay some even if it was not much. Fast forward to re-entering the courtroom on to tell me that the judge said he had to pay \$ mo!! At this point I was beyond livid because I had been denied a fair trial considering i always showed up early and prepared while showed up late in the and hearings by almost minutes each time. Not only that my trial had been set for MINUTES not minutes!! Since the court hearing i recieved mv on the with lice YET AGAIN after i had sent with father on lice and nit free! I took to because to top it off was alleging that because i work for in our town the will " ' in mv favor.... So to top it off it cost me to drive out there and while there i spoke to and there is now against for . Now you would think that i would have been able to get some type of emergency custody or supervised visits until that case with the was conducted and completed but when i filed for was denied and to my luck the reviewing Judge was. of course, now after letting them know I would like to see another judge they did get but they did tell me both judges would be looking at the case together and then the judge would decide if he'd see me. I took all the supplies and the facts and plenty of evidence showing that was being neglected while under fathers care by allowing Lice infestation and yet still i was told i needed to do more i needed to give him medicine when i send for this when hes the one allowing it! I explained to now i am the one who has been constantly picking Lice and eggs out for hours on end, strand for strand and staying up until ungodly hours of the morning to launder all of the blankets and upholstery in our home I tried my best and now i feel like I'm the one that failed my child when i've done all i possibly can, was cleared by two doctors as Lice and egg free. I would like to request that the judges involved be investigated because i thank god the the n this case is Lice and not because of Judges like these two is why we see so many sad stories on the news and online where the signs of the is there and they turn a blind eye like these two did and when something awful happens then they want to say they are sorry.
