

State of Arizona
COMMISSION ON JUDICIAL CONDUCT

Disposition of Complaint 18-241

Judge:

Complainant:

ORDER

The complainant alleged a superior court judge failed to provide an interpreter for a civil hearing and threatened to throw him out of his courtroom.

The responsibility of the Commission on Judicial Conduct is to impartially determine if a judicial officer engaged in conduct that violated the provisions of Article 6.1 of the Arizona Constitution or the Code of Judicial Conduct and, if so, to take appropriate disciplinary action. The purpose and authority of the commission is limited to this mission.

After review, the commission found no evidence of ethical misconduct and concluded that the judicial officer did not violate the Code in this case. Accordingly, the complaint is dismissed in its entirety, pursuant to Rules 16(a) and 23(a).

Dated: November 21, 2018

Copies of this order were distributed to all appropriate persons on November 21, 2018.

This order may not be used as a basis for disqualification of a judge.

I am _____ who has Ben diagnosed with dementia and Alzheimer's deceased
_____ she signed the power of attorney when she became aware up the symptoms her
_____ passed away due to the same illness last year the reason why she was concerned about it is
she lost her way home and due to this she stopped driving and made sure she would be represented
by someone she knew and had her best interest in mind. At least it was an attempt to make sure she
would not suffer from the things that are now happening.

The case _____ began
due to the _____ in the business of _____ miss managed
the _____ Their _____ line failure caused the issue when it broke about _____ before
_____ which according to the _____ is the sole responsibility
of the _____ and that the only way in which they would not be responsible would be for one of
the _____ employees who is capable and has been educated on this trade not to forget such
an event ever occurring . Now to get the point through I am going to go back to how the system is
failed us because of this we have been through a lot of things that could have been prevented if only
the _____ and representing attorney would have had the correct ethics and integrity
this has been spreading through the process of law and those who are in charge of protecting our
rights under the Constitution including property rights civil rights and ethics.

The home we worked and paid for was entirely damaged by the fire sparked when the line from the
grid broke as it did the ends of the line became two big balls of melting matter one end fell on the
storage room by the house igniting the roof and the floor as it went through it the other side fell on
the vehicle parked in the yard and ignited the front tire this burned the car completely I woke up
and saw the fire behind the home through the bathroom window and awoke my wife telling her to
file the fire department and get Mom out of the house I attempted to use the water house to put
the fire out no such thing happened and the fire department came to us _____ later secured
the area and made sure that the structure was completely off the power company came and took
the line that failed and from our home to their dispatch yard managed to lose the evidence the fire
department conclusion that the fire was not arson. We hired an attorney to help us with the process
of law and from the start he was made aware of the fact of _____ and the facts that I
have a _____ to do what I was doing which was hiring him we communicated and got a _____ to
see the cause of the fire _____ and anyone who has a mind definitely conclusion that the case
was _____ there is a recording of us and the attorney in which he tries to get
_____ in the attempted to _____ to sign the settlement agreement which was
never agreed upon in any form but prior to that he didn't contact us or _____ and also

cancelled the deposition _____ that made me react with a complaint to the _____
 _____ who gave the complainant to the _____ who did not follow through
 with the investigation even after I keep calling and texting making them aware of the Actions taken
 to the point where he filed the settlement when I went to the _____ and asked for a copy
 of the report they provided a page on the process and now to the Judge who is responsible for
 delivering the confirmation to the _____ as to the faith of the case I tried to
 tell him that I have a _____ and the fact that he said _____ had no validity in his court and
 threatened me to throw me out of his court and gave the rights of others to a corporation for
 _____ the entire case was dismissed as a minor infraction
 by the _____ and in doing so it would not be required to report the incident and avoid
 the compliance issues that would be a great amount of money in fines for the irresponsible behavior
 and destruction of property so much for the right to be heard by an impartial member of the legal
 system the other thing is that the judge _____ in his court room on a prior occasion and was
 aware that _____ on this case was unable to understand the language and did not provide
 an interpreter in the case which another violation in a third world country the case would have been
 no worse than it was here where the law is what you and I have been told it is but maybe the
 country is decaying to the point where no longer have access to the law only the rich and powerful
 find the answer they want

My name is _____ and my phone is _____ thank you
 for your time and consideration my email address is _____

The judge who is responsible for delivering the unlawful settlement agreement on this case is [REDACTED] this judge had the plaintiff in his court and was aware of the language barrier she was given an interpreter for the prior case but left in the dark on this one against [REDACTED] and he said that the [REDACTED] did not entitled me to speak on the plaintiff behalf which is not a true statement but both our attorney who was angry because I had complained about the behavior he was having towards us and his handle on our case not being in our interest would not make the [REDACTED] what it is intended for which is to provide the plaintiff on this case with the reasonable dispensing of legal issues and a proper monetary amount to cover her loss on a case in which all the evidence points to the commission being at fault for the house burning and it is not acceptable for her to become a [REDACTED] just so they can avoid being responsible for [REDACTED] they have signed to provide in a safe and secure way

The case has been settled in the court against our wishes to the convenience of the monopoly aided by the attorney we had hired to defend our property rights and privileges who made it possible for them by denial of the in effect on his word after I had filed a complaint with the who passed the case to his comrades at the which was very helpful to him and gave him the opportunity to try to make his unethical behavior go unnoticed this after I kept calling them to report each unlawfully move he made to have the case settled on the contract we had with him it is clearly stated that we had to approve the settlement or it would not be settled also I have possession of a recording which makes my statement a proven factor in which he is attempting to get the person who was at the time acting as her to keep such things from happening he made the attempt of getting rid of her trying to convince the to agree and sign the documents which she denied as she denied him the opportunity to work her into the signing of the contract. The other side of the facts was the actual factor in which the judge knowledge of the plaintiff lack of understanding of the language by the facts that she was in his court prior to this case as the defendant and there had been an interpreter qualified to translate the proceedings due to her lack of understanding the mention nothing to him either because when I mentioned the reason for this document he immediately threaten to throw me out of his court room and told me that the had no validity in his court he gave the attorney more chances of getting himself out of the cross hairs than any one should have in my personal opinion they all one way or another because the accommodation made for the settlement were handed out to them as if they were the plaintiff and had just won the case the behavior of the system is unfair and unethical in all angles presented by the proceedings so to get the in the avoidance of the rules and regulations of the prevention of major fines and penalties for the failure to do the job as it is described on the description of the remedies for such an act of property destruction the only reason no need one died was because I happened to wake up just before the entire house caught fire and awoke the other people in it of course the cancellation of the deposition was another handy tool in the denial of our claim it was cancelled to it happening this is the most damaging action taken by the entire system against able to defend and us to be able to provide and prevent such actions against well being physically and economically this is a formal complaint and hopefully we can have the respect the rest of the community expects to be given to instead of the treatment of which we were seen as uneducated and less than animals by the kind of treatment we were subjected to by this individuals who are not the intended type of people that should occupy have not in this country not on this world and not at this time when civilization is supposed to be at the best of times

The case of which I spoke is ,

We would like to have the same amount of justice any other American is entitled to and a fair compensation for all the losses we have incurred due to the actions of the in the attempt to avoid the responsibility they should have taken on this case we are aware that things happen and would have felt with the fact but what was done after is not something that just happened it is something that was plotted against us with no fault of our own given our economic disadvantage not a single attempt to provide any type of assistance not even a little bit of common human care was given to make this great loss somewhat more bearable to us no need for an excuse or explanation of the facts and evidence that the monopoly claim to have lost in the 2 mile trip from our home to their yard how much more can I do not to loose the composition of my humanity and my respect for the life and well-being of my fellow humans this act of hate towards such a vulnerable person is beyond the scope of my understanding and my respect for this position taken by the company is not an acceptable position in any way or form the responsibility of the job performance is not acceptable to me and I hope that it not acceptable to you either thanks for the time to read this email and any attention to the actions against us but most for any action taken to rectify this situation and provide us with the certainty that we as part of the community are valued as such and that our rights are as good as any others regardless of how much money our bank account has in it
