	)	

The National Council on Crime and Delinquency (NCCD) has submitted a formal proposal for research entitled *Field-Initiated Research and Evaluation: A Comparative Study of the Relative Validity, Reliability, Equity, and Cost of Widely Used Assessment Systems*. The Administrative Office of the Courts has accepted this proposal and entered an agreement with NCCD entitled *Research Data Sharing Agreement* (Agreement). Under this agreement, data for the study is to be extracted from the Juvenile On-Line Tracking System (JOLTS) and the Integrated Court Information System (iCIS), including data derived from risk and needs assessment records that are closed to the public or protected as confidential by court rule or other state statutes or regulations. Therefore, pursuant to the Supreme Court's administrative supervisory authority (Article VI, Section 3 of the Arizona Constitution) and rule-making authority (Article VI, Section 5 of the Arizona Constitution) over all of the courts of the state, as well as Rules 19 and 47, Rules of Procedure for the Juvenile Court, and Rule 123, Rules of the Supreme Court,

IT IS ORDERED that the Juvenile Justice Services Division of the Administrative Office of the Courts (AOC) is authorized to extract the data identified in the Agreement (attached as Exhibit A) from the JOLTS and iCIS systems and provide it to NCCD. Prior to data delivery, the AOC shall remove personal identifiers and replace them with an anonymous identifier.

IT IS FURTHER ORDERED that as a condition of receiving JOLTS and iCIS data under this Administrative Order, NCCD shall secure from public access all data provided, shall use the data only for research pursuant to the agreement, shall not release any data that could be used to identify a specific child, and shall return all data provided by the AOC to the AOC for destruction on termination of the agreement between NCCD and the AOC.
