

Digital Evidence Access Portal and Search for a Case

The Digital Evidence portal can only be accessed by registered users, and **a user will have access to a case only after being invited into the case**. Cases will readily appear on a user's Case List until the Clerk removes the user's access to the case or until the Clerk marks the case as closed. Although closed cases will not readily appear on the Case List, as long as the user maintains access to closed cases, the Case Filter may be used to access closed cases.

1. [Login](#) to the Digital Evidence portal > The **View Case List** screen will open by default > **Scroll down** to locate the **appropriate case** within the Case List (*default setting = show 20 cases per page*)

The screenshot shows the 'View Case List' interface. At the top, there are navigation tabs: Home, Invite, **View Case List**, Hearings, and Support. A search bar is present with the text 'Case name / reference'. Below the navigation is the 'Case List' section. On the left, the 'Case Filter' is highlighted with a blue box and labeled 'A'. It includes fields for 'Hearing Date From' and 'Hearing Date To', a 'Case name / reference' field, and a 'Show number of cases in case list' dropdown set to '20'. There are also checkboxes for 'All Words', 'Show training cases', 'Show closed cases', and 'Order by Listing Number', along with 'Clear Filter' and 'Apply Filter' buttons. Below the filter is a pagination section with 'pages: 1 2 3' and 'page: 1'. The main 'Case List' table has columns: Name, Reference, Listing Number, Next Hearing Date, Last Updated, and Created By.
