```

### Notes:

1. Court person number in fr\_prsn must equal the court person number in the fr\_party transaction.
2. Charges must be disposed when sending the case to FARE, except for FTA Warrant charges, 13-3904\*, 13-2506\*, 13-2507\*, 13-2810\*.
3. When sending a case to FARE, the fr\_obgtn transaction must have the total balance in both the case Total Balance field and the Non-Financial Adjustment field. This format can be used when initially sending a case to FARE and when sending a case back to FARE after a recall.

## Examples for Stage 4 Unit Testing

### Phase 1 (Address and Phone Number)

Highlighted fields display what data changed with that day's testing

**Case referred to FARE. Initial case, person, party and party address transactions.**

## Examples for Phase 3 (Voiding Payments)

Bolded fields display what data changed with that day's testing

### VOIDING DSO PAYMENTS

#### Court receipts \$100 DSO payment (one transaction)

fr\_obgtn|U|0|1403|0751|2017-06-14 13:32:21|M|0751|TR|2017990001|D|1|0|||2017-06-14 13:32:21|45683|||**1032.56|0.00|164.86|-100.00|-19.50|D|**

#### Court voids the DSO payment (one transaction)

fr\_obgtn|U|0|1454|0751|2017-06-15 11:16:21|M|0751|TR|2017990001|D|1|0|||2017-06-15 13:32:21|45683|||**1152.06|0.00|184.36|100.00|19.50|D|**

NOTE: A void can also be sent in two transactions (like a DSO payment and the balance updates being sent in two transactions).

### VOIDING DSO PAYMENTS – Case has restitution

**Court receipts \$100 DSO payment (one transaction); case has restitution. The payment pays off the restitution; TIP Flag changes from “R” to “Y” representing that there is no longer restitution but there is still a balance.**

fr\_obgtn|U|0|1403|0751|2017-06-14 13:32:21|M|0751|TR|2017990001|D|1|0|||2018-03-02 16:45:32|45673|||**1033.06|0.00|165.36|-100.00|-19.50|D|**

```

## Examples for Phase 8 (Recalling Cases from FARE)

### Recalling a case from FARE

```
fr_stat|U|0|1425|0751|2018-03-01 09:16:05|M|0751|TR|2017990001|D|1|||fr_party.recall_flg|Y|
```

**Court updates DOB and needs to ensure that the Recall flag is set to Y. It is important to note that the fr\_party transaction must contain the current values of all FARE statuses when sent to the data warehouse.**

```
fr_party|U|0|1426|0751|2018-03-0108:56:30|M|0751|TR|2017990001|D|1|Y|N|N|||N|447777740|N|WILSON|JOHN|B|345678900|05/05/1980|D12345678|AZ||N|Y|1|N|Y|N|N
```

**Depending on the current status of the case at the time the recall was processed, the system needs to send the correct statuses based on the FARE stage at the time of the recall. The following are examples of resend transactions/statuses based on the FARE stages.**

### 1) Reassignment for Enhanced FARE – Delinquent Status (prior to collection trigger)

**Reassigning a case to FARE after a recall (must be at least one day apart)** – The transactions should be in the required Case Add order and the fr\_party transaction needs to have the recall flag set back to N. In this scenario, the \$49 delinquency fee had not been paid. Case is not assigned to collections (so the 19.5% special collection fee has not been assessed)

```
fr_case|U|0|1388|0751|2017-06-16 12:55:47|M|0751|TR|2017990001|TR1|04/20/2017||N|WILSON JOHN B|||

fr\_obgtn|U|0|1393|0751|2017-06-14 13:32:21|M|0751|TR|2017990001|D|1|0|||||||1016.70|49.00|0.00|0.00|1016.70|C|

Note: When resending the case to FARE in the assigned status while enrolled in FARE CAP, the collection flag must be = "N", the recall must = "N", and the TIP flag must be "N".

#### 4) Recall/Reassignment for Enhanced FARE – Enrolled in FARE CAP, but recalled per judge’s order.

When a court determines a case in the FARE CAP program needs to be recalled per a judge’s order and the case will not be immediately sent back in to FARE then the court needs to reset the statuses for the case to be a collections assigned case so when the case is reassigned to FARE at a later date the case is in a collections status.

**Reassigning a case to FARE after a recall (must be at least one day apart)** – The transactions should be in the required Case Add order and the fr\_party transaction needs to have the recall flag set back to N. In this scenario, the \$49 delinquency fee had not been paid. Case currently does not have the collection fee assessed (waived because of FARE CAP Enrollment). Because the recall was due to a judge’s order, the statuses will reflect the assigned to FARE stage, and the collection fee will be reassessed.

fr\_case|U|0|1388|0751|2017-06-16 12:55:47|M|0751|TR|2017990001|TR1|04/20/2017||N|WILSON JOHN B|||||||

#### b. Removing Web/IVR removal status

fr\_stat|U|0|1450|0751|2016-08-07 09:21:58|M|0751|TR|2017990001|D|1|||fr\_party.web\_ivr\_removal|N|

### Collection Suspension

#### a. Suspend Until date (if programmed into CMS)

fr\_stat|U|0|1450|0751|2016-08-07 09:21:58|M|0751|TR|2017990001|D|1|||fr\_party.suspend\_until\_dt|09/01/2017|

#### b. Indefinite suspend (if programmed into CMS)

fr\_stat|U|0|1450|0751|2016-08-07 09:21:58|M|0751|TR|2017990001|D|1|||fr\_party.suspend\_flg|Y|

**c Reset Indefinite suspend or suspend until date (if programmed into CMS)**

fr\_stat|U|0|1450|0751|2016-08-07 09:21:58|M|0751|TR|2017990001|D|1|||fr\_party.suspend\_flg|N|

**TTEAP Waiver**

fr\_stat|U|0|1450|0751|2016-08-07 09:21:58|M|0751|TR|2017990001|D|1|||fr\_party.tteap\_flg|W|

Note: The TTEAP waiver is in effect for 30 days. The contractor system will automatically remove the waiver after the 30 day time period. The CMS must track the 30-day waiver period and internally update the waiver status to “N” once the 30 days has passed. This is to ensure that subsequent party transactions will not send an incorrect TTEAP status.

**Case sealing**

**a. Sealing a case FR-case transaction**

fr\_case|U|0|1388|0751|2017-11-16 12:55:47|M|0751|TR|2017990001|TR1|04/20/2017|Y|WILSON JOHN B|||||||||

Note: When a case is sealed it is removed from Public Access and automatically recalled from FARE.

**Examples for Phase 10 (Inbound Transactions)**

**Assignment Trigger Event (sent by contractor 15 days after notice 2)**

## Examples for Phase 11(Other Testing, if applicable to court)

### 1. Joint and Several Restitution Cases (J&S)

a. Two related J&S restitution cases are placed into FARE, then payment is made on one case and obligation transactions for both cases are sent to FARE (ensuring payment case displays receipt information and case not directly receipted on shows adjustment)

Obligation sent for case receiving \$100 payment

fr\_obgtn|U|0|1407|0751|2017-08-30 13:32:21|M|0751|TR|2017990001|D|1|0|||2017-08-30 13:32:21|45690|||975.46|0.00|159.18|-100.00|0.00|C|

Obligation sent for related case for \$119.50 adjustment (\$100 for payment on other case and 19.5% adjustment for the collection fee)

fr\_obgtn|U|0|1408|0751|2017-08-30 13:32:21|M|0751|TR|2017990001|D|1|0|||855.96|0.00|139.68|0.00|-119.50|C|

b. Two related J&S restitution cases with one in FARE and one non-FARE, then payment is made on non-FARE case and FARE cases receives transaction for adjustment (ensuring that payment cases displays receipt information and case not directly receipted on shows adjustment)

No obligation is sent for the non-FARE case receiving \$100 payment

Obligation sent for related case for \$119.50 adjustment (\$100 for payment on other case and 19.5% adjustment for the collection fee)

fr\_obgtn|U|0|1408|0751|2017-08-30 13:32:21|M|0751|TR|2017990001|D|1|0|||855.96|0.00|139.68|0.00|-119.50|C|

c. Two related J&S restitution cases are placed into FARE, then DSO payment is made on one case and receipt transactions for both cases are sent to FARE (ensuring that payment case displays receipt information and case not directly receipted on shows adjustment)

Obligation sent for case receiving \$100 DSO payment

fr\_obgtn|U|0|1407|0751|2017-08-30 13:32:21|M|0751|TR|2017990001|D|1|0|||2017-08-30 13:32:21|45690|||955.96|0.00|139.68|-100.00|-19.50|D|

Obligation sent for related case for \$119.50 adjustment (\$100 for DSO payment on other case and 19.5% adjustment for the collection fee)

fr\_obgtn|U|0|1408|0751|2017-08-30 13:32:21|M|0751|TR|2017990001|D|1|0|||||||855.96|0.00|139.68|0.00|-119.50|C|

### **Rounding for collection fee based on payment distribution**

When a payment is receipted on a case and the percentage applied to the collection fee causes a rounding adjustment for the penny amount a separate adjustment transaction for the penny rounding needs to be sent.

fr\_obgtn|U|0|1407|0751|2017-08-30 13:32:21|M|0751|TR|2017990001|D|1|0|||2017-08-30 13:32:21|45690|||955.96|0.00|139.68|-125.00|0.00|C|

Calculation for collection fee reduction based on 16.3179% of the payment amount is \$20.397. This means that due to rounding, the amount should be \$20.40. The penny adjustment must be reported on a separate fr\_obgtn transaction.

fr\_obgtn|U|0|1407|0751|2017-08-30 13:32:21|M|0751|TR|2017990001|D|1|0|||||||955.97|0.00|139.69|0.00|0.01|C|

### **Case Balance Correction**

FARE Case Balance Correction would replace using Recall and then resubmittal for a case balance correction. The CMS would send an obligation transaction on to the DW (and then on to Conduent) that will update the current balance for the case and the two FARE fees in the DW and with Conduent. This bypasses the need to recall and resend the case back to FARE which can affect TTEAP holds and other financials. The system should ensure that the Party is active in FARE at the time the selection is made and is not currently in a Recalled status.

fr\_obgtn|U|0|1407|0751|2017-08-30 13:32:21|M|0751|TR|2017990001|D|1|0|||||||955.97|49.00|139.69|0.00|0.00|R|
