Discussion Points/Decisions:

- A conference call was held on January 17, 2018 and present on the call were: Pima County – Christine, Susan, Cas, Patricia M., Sean A; AOC – Steve H. and Laura R.
- A full TIP data upload was done in December 2017. Patricia thanked Sean for working on this. The group then discussed a timeline for getting regular updates (case adds and balance updates) sent to the AOC. Sean believes that by the end of next week they could all meet and discuss next steps (how regular the updates should be, etc.) and that data may be ready for review. Christine said her team is ready to validate any update data that Sean produces. Steve said he could talk to Kathir and get more information on the timing and communication protocols of updates. He also said the first set of updates will need to go through the test DB to ensure there are no errors since this is a newly designed process. Patricia asked about how files are sent over and Sean confirmed they are broken down by court number. Steve emphasized that the updates are necessary for case accuracy and to make sure there are no erroneous interceptions.
- Patricia thanked Laura for sending her FARE and DSO training information.
- Cas said they are working on BPRs. He has some questions and he and Steve will coordinate a meeting to discuss these. The group discussed getting the BPRs as ready as possible so that when Sean's group is done with eFiling they can focus on FARE programming.
