

MEMORANDUM

TO: Administrative Office of the Courts

FROM: ADOT Motor Vehicle Division

DATE: August 28, 2024

RE: Driver History Records

As you know, ADOT MVD is updating our systems to implement the American Association of Motor Vehicle Administrators' (AAMVA) best practices one driver history record for each individual.

The go-live date has been pushed back slightly from August 2024 to **September 15, 2024**.

This update will include the following changes:

- Expand the electronic submittal of convictions and withdrawals allowing for more timely posting and actions taken when needed;
- Motor Vehicle Records (MVRs) will include conviction history from other jurisdictions.
