DATE: July 9, 2024

RE: Driver History Records

ADOT MVD is updating our systems to implement the American Association of Motor Vehicle Administrators' (AAMVA) best practices one driver history record for each individual.

This update will include the following changes:

- Expand the electronic submittal of convictions and withdrawals allowing for more timely posting and actions taken when needed;
- Motor Vehicle Records (MVRs) will include conviction history from other jurisdictions.

This update is expected to go live in August 2024.
