FINDING THE SECURITY CODE

Finding the Security Code

A credit card Security Code provides an additional security measure to prevent card misuse with on-line transactions. The Security Code is also known as the credit card Verification Value.

For the majority of credit cards, the security code is the last three digits of the number shown above on the signature strip on the reverse side of the credit card. In the example below, the Security Code is '123'.

SECURITY AND PRIVACY NOTICE

Security and Privacy Notice

The Arizona Supreme Court does not use this Web site to collect personal information for any purpose other than to complete an online payment transaction.

The Arizona Supreme Court does not create individual profiles with the information provided by users of this site, nor does it voluntarily provide such personal information to third parties or private organizations. The Arizona Supreme Court does not track information about individuals and their visits. The information does not identify you personally. The Arizona Supreme Court does not collect information for commercial marketing from this site, nor will you be sent unsolicited e-mail. The Arizona Supreme Court does not use "cookies" on this site.

In order to provide electronic commerce capabilities, the name, address and payment information that you must provide when using this Web site to make a payment will be used and processed to complete an online transaction only. Your e-mail and credit card information are not retained by the system operating this Web site after completion of the transaction. When you visit a page on this site, the following information is automatically collected and stored:

1. Internet domain and IP address from which you access the Arizona Courts Online Payment Web site;
2. Type of browser and operating system used to access the Arizona Courts Online Payment Web site;
3. Date, time and duration of the visit;
4. Pages visited; and
5. Address of the web page you previously visited to link to the Arizona Courts Online Payment Web site.

This information is automatically transmitted by your browser and none of the information can be linked to a specific individual. The information is used to gather Web usage statistics for site management purposes and to help improve our Web site.

If you have any questions or concerns about this security and privacy notice, please send us an email at support@supreme.sp.state.az.us.

Temporarily Saving Your Payment Information

When entering your credit card information for a case payment, you have the option to temporarily save that credit card information for additional case payments. This is a convenient, timesaving feature if you are paying for multiple cases at a time.

How it works

If you choose to save your credit card payment information, when you are finished paying for one case, you can continue paying for other cases without re-entering your payment information each time. The Arizona Courts Online Payment web site saves your payment information, including billing address and credit card data, in a secure location. When you return to the Enter Payment Information screen, the Arizona Courts Online Payment web site automatically redisplay your payment information. You can simply click the Verify Payment button and continue on your way. And when you are finished paying cases, click the I'm Finished Paying Cases button and all of your payment information is permanently deleted from the Arizona Courts Online Payment web site.

Deleting Your Payment Information

When your payment information is permanently deleted from our web site, it cannot be used for any other online transactions on the Arizona Courts Online Payment web site unless it is re-entered. To prevent misuse of your credit card information, the Court takes extra precautions and will delete your payment information if any one of the following actions occurs:

- If you click the I'm Finished Paying Cases button
- If you close your web browser
- If you navigate to another web site
- If you exit the case-payment process, either by returning to the Home page or picking a new Last Name from the Verify Your Identity screen
- If your web browser is inactive (no links are clicked) for longer than 5 minutes

Added Security

In addition to our Secure Socket Layer (SSL) encryption, when your saved credit card number is redisplayed on the Enter Payment Information screen, the number is masked except for the last 4 digits. For example, if you enter the credit card number 1234 5678 9012 3456 for your first case payment, each time the number is redisplayed on the Enter Payment Information screen, it will appear as xxxx xxxx xxxx 3456.
