

WORKGROUP: Policies and Communications

AOC: Marcus Reinkensmeyer; Don Jacobson; Jennifer Albright.

Security Assessment Checklist.

Don has created a model security assessment checklist. The template is based on the Pima template shared by Mary Jane Abril and the Superior Court in Pima County as well as a few national models. The goal was to integrate questions that covered all of the standards. Can the workgroup review the checklist and give some feedback?

Incident reporting.

Standards 4 and 5 involve responding to negative events and development of an incident reporting system. Don Jacobson will be working on some police and protocols related to these standards. What are some things that should be considered for incorporation into those policies and protocols. Are there any tools or model tools that might benefit courts as they develop localized response policies and reporting systems.
