AZTurboCourt E-filing Coming to Pima County for Civil Cases

PHOENIX – The next generation of court automation is coming soon to the Superior Court in Pima County. AZTurboCourt will be available for civil case initiation and civil subsequent filing in the Pima County Superior Court Beginning February 17, 2015. Opening a civil case and submitting additional materials related to the case used to require a visit to the Clerk of the Superior Court. In person trips to the Clerk to file a Pima County civil case will be a thing of the past with the launch of AZTurboCourt.

Law offices will need to establish an account in AZTurboCourt before making their first filing. Please be aware that it may take three to four days to set up your payment account. For information on how to register and set up a payment account please go to www.azturbocourt.gov/azturbocourtinformation and click on the “Training Manuals” or “Tutorial Videos” link.

Live and on-line training classes will be available starting February 9. The training sessions will include step-by-step instructions on launching an account, e-filing a case, attaching documents, and other tips to ensure that an electronic submission is not delayed due to errors.

A training manual and self-paced training videos available on our website at www.azcourts.gov/azturbocourtinformation. There are several differences between the Maricopa County application and the Pima County application so training is highly encouraged. To sign up for an in-person or WebEx training class, please visit <https://www.eventbrite.com/d/az/supreme-court/>.
