The judge acted favorable toward the defendant in the case because the defendant was a young  . He stated that the defendant was "just acting like a kid". The judge has no regard for my safety even when the defendant admitted to trying to start a fire in my . I do not believe that he was acting free of personal bias. My life is in danger and he could care less. Judge  stated that I needed to ignore the harassment or find another school to attend. The injunction had been broken this past Monday when the defendant and his friend cornered me and attempted to take my cell phone. I went to the court for help and I was treated like I was a bother. This is not what my taxes are paying for. I have read what qualifies an individual to obtain an injunction and my circumstance goes beyond what is written in that description. I have been harassed for almost an entire year, and for this judge to belittle the situation I now understand how tragedies such as Columbine can occur, you expect the legal system to protect and instead you're treated like a joke.
