COMPLAINT AGAINST A JUDGE

Dear Sir(s) I can't be sure of the date that all of this started it has been going on for quite some time.

I have had a view deck over my patio for approx 4 years. I had this deck built when my pool was put in by [redacted] pools.

In [redacted] I began to build a fence in my front yard to separate us from our neighbor whom we have had problems with for the last 7 years. The man [redacted] is a peeper, we have pictures of him video taping into our backyard we have made police reports but apparently this is not illegal. This is not the only issue with our neighbor. As the fence became more complete [redacted] from the city office came around and then decided that my deck was illegal as she states that she saw it from the street upon driving by. No she was in our neighbor's back yard. It was then that she decided that it needed to come down along with the wall. I went to the city office to get a copy of my pool permit and plans to show that this was to be done at the time of the pool, but conveniently our plans have been destroyed. So the burden of proof lays on me. I have no proof my plans were destroyed.

Other than the contract that I signed and Judge [redacted] felt that this was not good enough. I have since been to court at least 10-15 times over all of this. At one point I went into court on [redacted] and Judge [redacted] was not present, it wasn't until late that I was told he would not be in. It was myself the court reporter, [redacted] and the [redacted] our neighbors that we are in dispute with, my question is why were they there?. When I was told that [redacted] would not be in I was upset I was attending a family funeral in California so I had to leave to appear at this hearing. On the Friday prior to the hearing on Monday the [redacted] I called the court house to see if in fact I was to appear due to it being [redacted] I was told yes it would be court as usual. So after I heard that [redacted] would not be appearing I blurted out this is bullshi-. I immediately apologized and then I was held in contempt and ordered anger management classes. I fill that for whatever reasons the Serve and protect officials of [redacted] find any way they can to harass me. On this same day as I left court room and man in plane cloths whom was in the court room approached me from behind grabbed me by the arm and said don't you go any where and started yelling and rambling at me. I have seen a Dr. for my arm and had an MRI due to the pain and it is ongoing. I field a complaint at the police

department with and Officer [] on [] complaint [] when I field the complaint I describe the man at this time I was told who he was. When I field the complaint I was asked are you sure you want to do this. [] is an officer who has been to my home several times due to the ongoing harassment of my neighbor, even though they are peepers, go threw our trash and call in false 911 police reports, threw the judicial system it would seem that I am the one doing the harassing. Each time that I appear in court I am fined and threatened with jail. If I question any thing said I am threatened with jail. My last appearance was I believe [] about the deck, my engineer was present because he was ordered by the court. He was told that he had 7 days to draw up my deck so that I may obtain a permit. He said he could not do this in 7 days he was given no other choice. I then went to the city office and asked again about a permit before proofs and was told their could be no permit with out knowledge of what they were permitting. I then went home and tore down my deck and submitted proof to the court. I have also taken down the fence in question these things I have been fined for and threatened jail time.

My neighbor's wall is maybe 2 feet high on his side on the driveway; from here you can look right into our backyard and pool. I put a wood plank up on my pool gate to keep some privacy while we are in our pool and to keep the neighbors grandkids form hanging over the fence into our yard. It was not permanent it does detach. My neighbor was having some work done in his back yard, when I went to court regarding this and was also fined and threatened jail time. I told [] it was only temporary and the purpose was for privacy as the workers walk to the back yard and park in the driveway they can look right into our pool. I was orderd to take this down and I did at the time of my hearing I told [] again it is temporary and when they were done it would come down. [] came by the day of another hearing and said it was not down. She has never once knocked on my door and questioned any thing for which she and the court are harassing me about.

I have also been fined for parking my boat and truck in my driveway that protruded on the white line I had a cone on the line to let passers by know that it was a close drive. My neighbor called the police not one officer but 2 and a commander appeared, odd.

We had company arrive and I was just getting ready to head to the gas station when the police arrived I was not allowed to move the vehicle until the commander arrived they were abrasive and rude at this time the commander moved the cone out into the street then took a photo. I was given a ticket when I went to court I had to appear before [] and with no surprise fined.

These are just a few things I could go on, but I think you may get the understanding of what is going on.
