Sirs,

That was responsible for forcing people to live with Arizona,s R.I.C.O. death certificates it rteminded you of the guy opening everyone,s mail and after opening the 17 group homes he prosecuted the United States representative because he would not have accoountable under federal law.

Arizona,s R.I.C.O. death certificates have the right of the informant to remain the relatives as accomplished by Counties proba d9vision is someone as well mad at fraudulent auditing practices by and wills that gave you anything just had left out your share at the behest attorneys

It has proved excedingly difficult to get Arizona Vital Records div division to ever correct a death certificate perhaps they need investigated for ARXXXX 38=423 in every one that was a tampered with death certificate

but there was no way cared to penalize any other fraudulent documents the woman had the ones saying I want my niece to have th house were viewed as good and an improvement over actual relatives who were given malign treatment and cheated

The actual relatives were maliciously imprisoned and given ACTH which was to slow their heart down and licinopril by medical offices at qwhch it was possible to obtain court oreders to force people to take the dyspnea causeing chemicals in malicious imprisonment proceedings

They will not deviate from the deals in which a doctor could h court oreders in cardiovascular dgugs which give you syncope at the end of montjhs. also a drug that gives you a bad feeling in your chest was reintroduced at the boarding house when it was possible to reintroduce cardiovascular drugs which give you heart arrythmias and the judge had a accomplished counts of illicit confinement that he needed people,s filing p paper and paperts and effects stolen because it was giving the R.I.C. O. d certificates of county a hard time by canacidal who conspired in with crooks in box 22 of a death certificate to get rid of the littlew dog ypou had been bequeathed

You know how the dog wanted to see his friends but wads met by the county mortician who was a canacidal brute.

the man continued to be in with other sopre headed bastards as ought to be on a dearth certificate and County seriously styole che

The resentable bully and conspirator in little that there was just no way that you could get the county to remove bastarwd from from box 22 of a death certificate. This

they had domieered to get by gangster death certificates and one other document and had invaded people,s privacy and inflicted malicious imprison of people who wanted some of the corrupt deeds and conveyances caught were robbed by and the cardiovascular drugs were given the pewople. neither the united States code nor 18- USCA285 were given de when the guy could nothave his own way in 13-3009 in which he was syealing on four occassions nosey stole papers and effectsd.

Please send me ACJC materials I can appear anytime

Sirs,

The reason you could not obtain a correct death certificate because a member of the county was the deputy registrar and the county as well the judge was asserting that they wanted a correct death certificate and the county was booking people disputing with the probate authorities the deal was that if the next three death certificates were incorrect about who was a relative they could suppress all of them and just didn't want to hear anymore complaints in death certificates at

The scheme with the doctors and the attorneys was hard to fight. The attorney wrote a fraudulent conveyance up for where I lived with a false conveyance to a woman from my mother's state

When all the copies were stolen of the fraudulent deed at where I used to live at We surmise that it may have been double fraud with a false relative or my mother. There is no way that County is allowing the attorneys that they cannot come to court with false relatives at a late

The attorney business in County really slumped with the at unwilling to go to court in anything done by a county employee including deputy registrar. They are unwilling to do anything contrary to County at all and never will challenge a death certificate was a tamper public record.

someone has been making it enough in violations of the fourth amendment get by gangsters' fraudulent practices

That it was more widespread than that they were a notorious lot in the fourth amendment in the theft of checks not just survivor's checks misdelivered but as well V.A. checks misdelivered the victim is I dare not know to or the whole thing is committed under mental health hospital

It was widely hoped following the orders to take heart drugs that he gave confined people. Lisinopril and ACTH were to administer in malicious imprisonment in quantities against civil filant's wills. The drugs give you you shortness of breath and a definite pain in the chest. They are not psycho drugs. They are cardiovascular drugs that were given to weight lifters in and to older Americans without discrimination of the Medical Offices near can administer the syncope producing drugs to older Americans against their will They plotted to give the drugs to a garage owner to make him tired and pain ridden and steal his business They could obtain special orders in it. The cardiovascular drugs that cause arrhythmia, definitely are bad for people with a heart condition and pose a malicious practices dealing with people forced to take drugs.
