Judge committed prejudice / bias for dismissal of case "with prejudice" exist as she had no information whatsoever and decided without input. We were waiting for hearings (on both sides) and she refused to decide a case without any information is misconduct of bias. To deny hearings for some is also misconduct. I have filed appeals for hearing and deserve to be heard; she told the entry judge and never refused to hear ANYTHING - no judge should be allowed to practice courtroom procedure in such a way: complete bias, which violates conduct rules. A decision could not be allowed by such a lack of information - our requests for hearing were denied and prevented the necessary input for a successful case.
