

Judge

Judge:

1. Biases
2. Doesn't review our case before trial
3. Case is over 10yrs old with no real progress
4. Gives way too many chances and benefits of doubt to whom has never shown/proven that he can be trusted or will make good on his word...NEVER!

Judge has another case pending with another child's mother of his.

5. Does not allow me to speak

And if or when I do speak he doesn't take what I say into consideration at all

6. He tells me what I say is irrelevant and hushes me! (**Doesn't character count?**)

7. Doesn't fairly assist the case

UNDER THE CODE OF CONDUCT #3 STATES: A JUDGE SHALL PERFORM THE DUTIES OF JUDICIAL OFFICE **IMPARTIALLY AND DILIGENTLY!**- I do not feel as if the Judge does this with our case!

8. I have a creditable background does not (due to his known criminal background)

9. After states he purposely gave all his income to his parents and supposed other two children the judge did nothing!

Realizing or not, if I point it out or if (wks for the attorney general's office) points out his repeated lies to the courts the judge fails to acknowledge these things!

The other party() stated to the courts/judge April 30th/09 that he has to give most of his money to his parents because they are out of work yet then June 4th/09 he states he works for his father during the day, yet no proof (I verified with the father that doesn't work with him nor has he ever and hasn't seen him, also that the if were to work for him it would be overnight, there are no day jobs) I expressed my relationship with parents and that him working for his father was untrue the judge disregarded me again! The father of also stated on June 5th that from his knowledge he works somewhere else!

I reminded the judge many times of lies and games to the court and asked for what I am saying to be checked or the statements of what is saying to be checked, Judge disregards my request!

My son and I feel that we are the victims and I am the adult so I am the one fighting for my son. I don't feel that this Judge Mr. is doing his job to the best of his abilities at all! I feel that I am often being treated like I am the criminal when in fact I have never been in trouble with the law, Yet is on probation for other things he has done to women!

What do I have to do to get justice for my son and I! Why does this Judge continue to let get away with this? I thought the judicial system was to help the victims yet every time I walk into court I feel as if I'm on trial or as if the Judge and have some type of secret act going on! **I am latterly sick when setting in this court room 304! It affects my whole life as well as my sons! My son has various issues in various areas due to the lack of support on behalf!** Why is it ok for this man to go

around and get women pregnant and then not take care of them, go to court and get a smack on the hand OVER AND OVER AGAIN? Not to mention all the women he has children with he prays upon them, takes their virginity, feeds them a story then leaves them alone, frustrated and no where to turn with a child!

I thought the courts were all about justice and equality, yet I'm no experiencing this!

I have to continue to struggle and fight the courts and all I get is "well maybe I should hire a lawyer" that a lawyer could do and tell me things that the attorney generals office is not able to. What since does it make, if I had the resources to hire a lawyer I surely would have! So whom does have the resources to fight this more? I sure don't, do you?

I am also told by many in the law field that the Judge isn't forcing many issues and again I should file something to make the judge do so and address the VERY obvious issues/concerns at hand! WHY DO I HAVE TO PAY FOR THE JUDGE TO DO HIS JOB???? Why can't the judge respect me and my son? Why can't the judge address the lies and issues/questions I present? Anyone can see that the other party in this case is lying! He hasn't been poor and unemployed for 10 years, he just doesn't want to own up and the Judge is letting him get away with it!

If I am misunderstanding something in all this, then I would like to know, but I nor any one I have spoke to or witness this case over the years has seen or understand the Judges actions!

I'm not writing this letter to piss any one off just to make a statement that **you need to evaluate everything when you deal with peoples LIFE especially children's life's!** **Some of this may be too much information, yet I was taught knowledge is power!** I'm an upstanding person and I'm also foster parent for state and it seems that even the foster children I deal with get more validation and support from the state.....etc than my son and I! How sad or wrong is that! My son is such a great kid too!

(a few pointers just lately)

1. Never paid monthly on his own or longer than a few months
2. Gives wrong work info repeatedly or not at all
3. When I tried to get him served/ or picked up on arrest warrants he hides from detectives (they are all very familiar with him and his sneaky tactics)
4. Lies about having no car to drive or doesn't drive at all yet he drives to the court house on all most every court hearing and has admitted to the courts he has purchased cars!
- 5. Says he financially takes care of other kids when 1 child his parents take care of and the other is starting a case with in the same court house and SAME judge!!! Go figure!!**
6. He only pays when he is put in jail with no work release and usually with in hours or days! (when the Judge is lenient, he runs with it/takes advantage)
7. Some times he pays the day or two before court never before. **He has never complied with the court orders of child support/medical insurance...etc.!**
8. He stated April 30th he gets paid three times in May, then June 4th he stated he gets paid from his Dad June 5th. Where is the money? Why is he on work release yet nothing is coming in?

I'm not going out with out a fair fight! If I have to call all the news station, picket outside, write the senator or president whatever, I will to get fair justice for my son and I!! Bottom line!

All in all I want this Judge Mr. _____ to address my concern and issues, try taking a chance on me and what I say and follow up on _____ statements/lies!

I'm not going out with out a fair fight! If I I have to call all the news station, picket outside, write the senator or president! How hard is it for the judge to review the case before hand? Instead of while I or _____ is speaking like he did on April 30th.

CAN JUSTICE BE SERVED? Can we get some equality? If you are going to take the persons who is violating court orders and running from the law then why Not anyone else's! A Judge it to be fair, then tell me what is being done that's fari to me or my son please?
