Complainant: No. 1372510773A

After considering the complaint and the judge's response, the commission decided to dismiss the matter with a letter reminding the judge of his obligation to comply with requirements of Rule 2.11 of the Code of Judicial Conduct and advising him that he should disclose information on the record that would be helpful to the parties in deciding whether to file a motion for disqualification.

First of all Mrs. is not an Amvet you have to have been in the military and she cannot act as an agent for the Amvet he did not question that false filing. .

4. Defendant - CC2009
With Mrs. the Judge put the burden of proof on me I started talking but immediately I was very emotional because I couldn't believe the lady I say as mom had fabricated all these lies on me. I had to gang my composer in order to state my case and by that time he went over to Mrs. and she started reading a piece of paper of my character with about six names on it none of those people were in court only the two plaintiff. He never even asks to see the letter it could have been something or nothing on that paper. But he allowed her to read it and everything she said or read was hear say, and after that he came back to me and ask if I had anything else I said some character letters he said those didn't matter or something like that. He asks if I had any witness I said yes and he turned to them and ask all their names but did not allow them to testify on my behalf. He then stated he would leave Mrs. in place because she has a right to make sure that the club is ran safe and if I didn't like he decision I could appeal it have a nice day. I also requested another hearing on 7/20/09 to see if I could get a fair hearing by a Judge that didn't know the ladies but it was denied how can I get justice.

Judge

Has been a part of the Southside community for many years he knows a lot about the amvet and know a lot of people personally like Mrs. I did not know him and he should have recuse himself so that I could have had a fair hearing. Do to his ruling I cannot get back in to my own club for a year not to even to have a

hearing in my own organization for the reason all this came down in the first place. I am very stressed out because he sentence me for a crime I didn't commit I can see now if a judge or jury is basis a innocent person can do life if someone don't fight your innocents that why I am not giving up because I am innocent

I will fight till the end. We have a coalition once a month and some elected officers are their like police department and others to keep the community up on things and to see if we have any suggestion so that they could always be there for the community. I am a life time member and Sergeant - at - Arms he know that we have by-laws and none of the ladies followed them if they had an issues with me. They knew they were lying that's why they went outside the organization to resolve something that has never been brought up or mentioned at the club between these parties.

Here is contact information on all are coalition clubs where Judge is well know both personal and professional. Community Meetings are held once a month at these Veterans clubs.
