No proper Court Conductive duties, Stressful Environment to Unsafe refusal of Complaint that was Dismissal of New Improved Certified Engine with improper installment. NB1 withheld and temperature gauge broken by defendant who can't speak English caused property damage that could have crushed car on fire. Mechanic & friend of his

who takes paid in full but did personal & property damage, withheld keys - Case # CC 2009

Sit in Petred Kemp Judge omitted 23 day old Default Judgment motion that should have went into effect in 10 days. K. Judge was influenced by court clerk's in window #7 & Not to read Evidence calling

Quote: "Too much crap to read, even police reports" Give it back; BUT I'm disabled & had 2 copies it didn't need return. R. Judge W. GOT upset when Evidence was placed on his bench desk and plaintiff Evidence (paper) tampered with by outside party. IN CITE HE TOOK a handful of paper including sent mailed envelopes & photocopies and demanded me to take them back (I had copies already)

Essentials, people, location, time, cost/values, common sense IGNORED; Like proper cross-examination, court must have had interpreter, assuming confidence in facts by defendant who was NOT a witness or supported by pleading, filed preantire strike transfer or continuance to civil. Not giving me counter or closure for character defamation of me or my brother not present. My witness (Jones) was present as well as police reports, witness statements, photo copies cost/values. ENGINE Damage or Accident WAS NOT my fault, I had Exhibits + Testimonies that did not need interpretations.
