The complainant alleged a municipal court judge conspired with law enforcement to falsely find him responsible for a speeding violation.

The purpose and authority of the commission is limited to this mission.

After reviewing the information provided by the complainant, the commission found no evidence of ethical misconduct and concluded that the judge did not violate the Code in this case. I hereby protest to the unlawful and unjust treatment brought about by CVMC who is

responsible for this unlawful terrorism, intimidation, loss of lawful driving privilege and theft by extortion. This is organized crime at work in that the domestic terrorist known as

_____ knew full well by video taped evidence that the initial speeding ticket written by _____ (Who had been drinking _____ prior to the traffic stop and threatened to shoot my blind and deaf dog.) was unfounded, fraudulent and untrue. _____ knowingly wrote a false document claiming that

I was speeding and he stated four different speeds that he had gathered using "VASCAR", around a corner and down a hill in less than 1 mile. For your information vascar estimates speed by a clear pre-measured distance and mathematically divides distance from time to estimate speed, the DPS operator was in error in the intentional fictitious use of this machine that relies upon him to flip a switch twice, at the beginning and at the end of the pre-measured distance entered previously into the machine. Vascar is not RADAR, it is not point and shoot as he was trained to use a gun.

In short DPS wrote a false complaint, CVMC refused a trial and demanded a prize of some \$300. that was paid to avoid threat, harm and damage! CVMC then falsely reported my SMI to DMV who pursuant to a scheme of a knowing fraud demanded a medical doctor perform an illegal psychological exam to evaluate my ability or disability to safely drive a motor vehicle.

I quote; "Those who use terrorism and intimidation don't represent the best in America; they represent the worst of humankind." (President Gorge W. Bush) It must be noted that bad behavior is more prevalent than good behavior, and therefore the best results and highest costs against Honest Citizens are attained by the tactical use and direction of violence, threats and terrorism, or a LIE (LEGALLY IMMUNE ERROR) than an academic discussion based upon truth or facts.

I believe all can agree that a Society without laws would be anarchy, so therefore laws have been fairly made for the common good and safety, of which no Citizen is immune from the duty to obey and follow said Laws. Moral values and common decency, I believe should serve the Citizens and Public Servants alike, but how can I achieve this dream to hold our Public Servants responsible for intentional organized crime devised to illicit unlawful prize while I am 1800 miles away on vacation with a broke down automobile.

I pray that this newspaper will print this expose' on organized crime by DPS, CVMC and MVD that have conspired together to commit willful acts of sedition against an innocent handicapped person that has in no way committed any harm or damage to anyone.

Thank You! In
