ORDER

The complainant alleged a superior court judge should not have allowed the issuance of an order of protection or its continuation and has made unfair rulings in his dissolution of marriage proceeding.

The responsibility of the Commission on Judicial Conduct is to impartially determine if the judge engaged in conduct that violated the provisions of Article 6.1 of the Arizona Constitution or the Code of Judicial Conduct and, if so, to take appropriate disciplinary action. The purpose and authority of the commission is limited to this mission.

After review, the commission found no evidence of ethical misconduct and concluded that the judge did not violate the Code in this case. The commission does not have jurisdiction to review the merits of either the order of protection proceeding or the dissolution proceeding. Accordingly, the complaint is dismissed in its entirety, pursuant to Rules 16(a) and 23.

Dated: November 25, 2013.

I am _____ years of age. My wife is _____ years. We married in _____. No children. My wife left our home for six months in _____ announced before hand, to live with her mother in _____

There I built and was finishing a new house she had requested. of me. She returned to _____ when she discovered the _____ was defective. She came to _____ to see me and tell me of the problem. She was very angry. She had insisted we purchase that house although I advised against it. I had strong doubts about the _____ and his honesty when he told us the house had been renovated and renewed.. The Seller had worked a (_____ Her mother also became very angry. All of them said _____ Because of our newness to the community we inadvertently chose an attorney and judge that knew the seller. They announced that. We lost big time. That frustrated my wife and her mother. They took out their vengeance and frustration upon me. They filed a _____ action against me. This, although it could not be true, for she and I had not been alone together for several months. My wife did not involve the police simply because there was no occurrence. There was no togetherness when such could have occurred, for when she arrived in _____ from _____ she had no bedding or cooking facilities except at her _____ which is where she immediately went.

When my wife _____ and I met I had a net worth of perhaps _____ Enclosed are pictures. One picture of a house on _____ I owned free and clear. The other house is what I built for _____ so as to calm her anger. It was worth perhaps _____ It sold for _____ in _____ or _____ When _____ and I married in _____ her net worth brought to the marriage was _____ That was from a small equity when a house in _____ was sold. Also a _____ she owned. I record this so that you might know what an error his Honor _____ was produced.

I am enclosing _____ printouts of their findings when I was a patient there. This to inform you what a torturous situation I was thrown into.

I had all this sickness and debilitating afflictions. I was evicted from my home. I had been living alone as a bachelor since _____ until _____ obtain the eviction by _____ That is Sixteen months that _____ chose to live with her mother. _____ old Judge _____ all sorts of lies in _____ so as to obtain the _____ Again in _____ she _____

again told lies to Continue the Which I have not been given the opportunity to protest because the involved judges have denied a Motion without a hearing.

I have all of these afflictions and no money except my monthly and payment. Why do I have no money. I had trusted my wife and I gave her over in to take care of because she had berated me so completely that I had no confidence that I would keep from wasting it as it was wasted in the house Case. Yes, my wife and her Mother berated me so much I began to believe I and not our had lost the and the . Please also understand that I was severely injured in an aerial Tram fall in the (of when a cable broke. I was in the when it fell some feet. I live now with a concussion and a continuous confusing cognitive ability.

So, how did Judge make this horrendous error? By failing to allow me to testify in my behalf or to allow anyone to testify in my behalf. He merely asked of me "Did you say that?"

I answered "No." He did not ask more or allow me to say more. I am almost mute, my hearing is so poor. I am not sure I heard correctly. Attorney was there and said something. I had advised him the day before the hearing that I was almost deaf and would need disability help, but I did not receive help or hearing aid. I do not know what aid. He did not prepare for the hearing to quash the P. O. He did not know, or question me to know, that in addition to my afflictions I have of value of and heavy that are now being destroyed by the environment because has dumped it out in the open and the elements have destroyed my property from failure to protect.

Judge could have prevented all of this loss; of valuable equipment, all of this torture to a human being, all of this gain given to an angry, unthinking and unknowledgeable Judge was reinforced the outcome or gain received by an undeserving person. How does he determine that I am able to loose my home when my home is sustaining my health, and the lose of my home and wealth at my property has made it impossible to continue the lifestyle I had constructed.? It has been destroyed by a person that would not listen. He should be removed from Office permanently.

I am asking my attorney, to obtain for me the ability to go to my home and photograph the destruction. As of today I have not heard from him. If he does not respond positively to me soon I will assume he too is protecting Judge I am giving him a copy of this complaint.

Also I have been in the hospital as an in patient for one and in assisted living for days. This as the result of the position I was put into and occurring in

I have had surgery for installation of removal of a and installation of a You may discern that from the enclosed documents.

At the very same time that I was evicted I was under obligation to answer the questions of As proof of that I will enclose a copy of my Immediately after eviction I was without the use of my All I had to live with was some clothing in my and miscellaneous I had very

little because my wife had raided my account where I had given her as a participant because my fear of death. She did not wait. She raided my check account and then filed for legal separation and so on. I had nothing to work with. I had . Motels were out of the question because of prohibitive costs. I had medical co pays to pay and insurance and attorney bills that took more money than I had. I borrowed from my Brother. He was very reluctant.

In closing I will say that any person with a concussion coupled with . . . or less heart beats per minute, or on the other hand or higher heart beats per minute, does not have sufficient blood flow to enable that person to discern improper action. When my wife would say to me, "Say this" I would play the game. Usually I was laying-back in my recliner almost asleep and having the of patches for pain that I wear. I was in LA LA Land. She could coax me to say anything, and I complied. I believe she may have recorded some of it and persuaded with it.

Several times I have put Motions in front of the Court. In particular the subject put in front of the Court was my statements. I believed if those statements convinced the Court to render to my wife a Protection Order it should likewise undo a protection Order. However, nothing I have put in the Motions prompted the Court to investigate or allow a full hearing. In fact a hearing was never allowed. That failure of the Court has allowed the destruction of material items that are now either ruined or rendered unusable because those were in the process of being stored and protected at the time I was evicted from my property

The materials that deteriorate rapidly has an estimated value of between and

I would ask who is going to pay my losses? Certainly the loss was attempted to be mitigated by me.
