ORDER

The complainant alleged a justice of the peace made an erroneous decision and misled him about the time he had to appeal the judge's decision.

The responsibility of the Commission on Judicial Conduct is to impartially determine if the judge engaged in conduct that violated the provisions of Article 6.1 of the Arizona Constitution or the Code of Judicial Conduct and, if so, to take appropriate disciplinary action. The purpose and authority of the commission is limited to this mission.

After review, the commission found no evidence of ethical misconduct and concluded that the judge did not violate the Code in this case. The commission does not have jurisdiction to review the legal sufficiency of court rulings. Accordingly, the complaint is dismissed in its entirety, pursuant to Rules 16(a) and 23.

Dated: June 5, 2014.

Synopsis of Complaint:

I have provided my federal and state government experience in the for years
with extensive fraud experience.

I believe there are collusion and abuses by _____ as well as questions in my mind about the federal issues in which the other party, the _____ police, and AZ authorities conducted themselves by crossing state lines in an effort to falsely prosecute my wife and me when it did not work in _____ when they realized the bogus charges were going to be dismissed to the work of my quality council in the matter.

Please review all the documents and attachments as I have needed to use my fraud experience to document what has occurred over the _____ years as these cases take a long time. I have watched the case proliferate to include conduct in _____ and across state lines and believe all parties are accounted for.

Please contact me if you need additional documentation and I am not afraid to be disclosed or to testify as necessary in the matter. I have seen to many citizens silenced in fear in _____ and believe only one person needs to be brave enough to come forward to expose something that has been going on here for years.

Sincerely,
