Judicial Complaint against

A long time previous I was made to approach the Judge with a my side and handed him a note to I guess sexual party at house. I was made to do this by their family/ friends. They have been persecuting me since a young age because me with two cops present. I reported it, then there after one of the cops falsely arrested me, took me out of his jurisdiction to an apartment and the other injected me with a I was all that by friend. That was one time and one of several dozens of that they have injected me with, now I have over They have stalked me, persecuted me, forcing job losses, making me seem like a homosexual, injecting me with un relentlessly, so I would not remember for through over altercations, rapes that I have documented this included unlawful detainments at the federal contract immigration facility over a year where still works for the corporation, she should be in prison. With all this they also organized life insurance murders including my which I witnessed and they messed me up so bad I could not even remember including other murders that they are responsible for but I can not get a hold of a

The would frequent parties at the residence I know because I was brought there for the sole purpose for them, through forced actions(making me do stuff through threats, violence, and injections) to lay a false moral character of me onto the Judge, like the way a bully makes himself seem better while making some one else seem worst, they have done this to me a lot including to Judge, judges, I know they know Court judges, judges. They turned it into a popularity contest to make them selves seem good while committing murders and rapes trying to make me look responsible for through forced actions on video. They have done this to a large multitude of women as they have stalked me or befriended that made them think the wrong moral character about me.

About ago when was at house, they made me ask him for money then they made me go downtown to make it look like I got some drugs and then made me go back to the house and ask him for more money. When I was down town they had a guy video me and had another guy video the guy videoing me and I was threatened to not look at the second camera guy, like I did not know he was there. had his cop friends ready and waiting for to call and arrest/charge me with an attempt charge. I was forced to do the whole sequence of actions. I was then in court in front of where he gave me days literally for nothing because of the out of court influence they had over him to make him think/ trick him like I did it willingly. days for a forced action that if I did not do they would further hurt me and inject me with which they did that time also so I would not remember to say any thing when I was in court. I could not even remember this happened because they have systematically stalked me with messing me up, stealing my ID's, and injecting me with The reason for them to do this to me that time was so I would lose the job I just obtained at the and so their friend could get the job. This arrest does not show up on my record but I know it has occurred about years ago. Also the public defender, I had back then knew the pernicious plan against me then as he knew from a time where they kidnapped me to mess me up and stole my phone and called every one on the phone I had

including public defender. I had her number because of a recommendation through for legal assistance. They called and got her to go to house and I believe they and during the called her phone and picked up, got to come over and he basically assisted them from that point on and even said "Prove it." When I was in front of the first time they literally forced me to be set up and they persuaded him to give me time on the false arrest charge knew that I wanted to write a paper to read to the judge but threatened me not to and back then said "No paper."

I know that they have brought me to the residence on multiple other occasions and there where a few other times that the was their. I have never been at that residence willingly or of my free will and every single time I was forced injections of so I would not remember that they brought me there. The only reason I remember this occurred is because I was before the Honorable for another "Attempt to Possess" charge where all I actually did was knock on a door and walk into an apartment with a 2 liter of 7up and my back I was tackled and punched in the face and had my arm twisted by reverse pressure on my middle finger by the officer that took my back pack that was never returned. My arm was injured to the point that I could not move it the almost the entire time that I was in jail after the Judge sentenced me days for an arrest of me doing absolutely nothing but walking into an apartment. stated, "I think you have a drug problem." That triggered the memory but not until now because has injected me with relentlessly. I wanted to say a lot about what was happening to me and about the arrest itself but

was my attorney again and this time I had hand written a whole page worth of speech which I was going to read but took the paper in the meeting prior to seeing the judge and I expected him to actually read it or say something to my defense but all he read was the past history since I was put on probation so no actual defense. Nothing just a pernicious taking of my speech that I planned to read to the Judge. My whole arrest history is literally and honestly a history of persecution that I need to explain case by case, basically I have had a few offences except when they literally forced me to get set up and literally forced me to plead guilty on a couple of possessions currently pending in the Court of Appeals. I am still going to write to write a Bar Complaint on because he took the piece of paper that I wanted to read to the Honorable Judge for his evil intended acquaintance and for the first time where he did the same thing basically and nothing. He did it because told him to as he was already befriended by when his coworker. Which during he called her phone and they told him to come over and instead of being a man and reporting what was happening stated "Prove it."

More a little off the point they have also used me to befriend about a decade ago. It was murderer and rapist friend of This was done for the sole purpose to display a false moral character of me on to her of me as a homosexual when it began as a straight meet. Then for him to be able to render her un-conscience and force me to on video so I would not tell on the several dozens of serious crimes they done. I was tricked to think that I was "allowed" at their house that time after they messed me up and I did not remember because of I just woke up there and said "Come back any time", which I did but they obviously tricked me that time because when I came back they knew I was there because of the

This is not the only Judge they rendered un conscience they have done it to twice as they knew she was my [redacted] once. They have done that to multiple other women also. They have also befriended [redacted] to display a false moral character of me on to them and also two other [redacted] judges. They have used me to swing the decision in another guy's case to make me look like I was a victim passing a note to one of the [redacted] Court Judges.

This complaint is mainly because Judge [redacted] has rendered a decision of days for a "probation violation" off a false arrest where there was no "substantial step" of attempt to possess or use anything. Entering a building is not an attempt. There was a substantial amount of outer courtroom influence, false as it be, that is not on the record that is sure to be the true reasoning for his decision in [redacted]. The [redacted] of this arrest, kept my backpack, twisted my arm, and has been there for another false arrest just take me out of his jurisdiction as I mentioned earlier. He was the also the one who was there for yet another set up arrest in [redacted] that they forced me to plead guilty to in [redacted] that orchestrated that they were trying to get me deported before they [redacted] father.

[redacted] was not the first time that he rendered a decision with the false out of courtroom influence as I mentioned he did it for the same people about a decade ago after they first met him where he gave me [redacted]. The cops that did the first arrest for messed me up after I got out of jail so I would not remember. When [redacted] first started organizing life insurance murder's he went to [redacted] Courthouse to talk to a judge to figure out a way to get the proceeds of the policies. [redacted] was told to use a third person, he said "Easy." He has persecuted me in a popularity contest bully fashion of high crimes and stalking

[redacted] have falsely prejudiced a lot of people against me but they have tricked the Honorable Judge [redacted] to "think" I have a drug problem. This is not even the slightest bit true but on two or more(I can't get my arrest records) false arrests which I had to serve [redacted] at least [redacted] where I was not even guilty of anything this seemed to matter as opposed to the charges being dismissed because of a complete lack of evidence on the record. These decisions were ruled because of out of courtroom influence that if entered on a record would have been proven false. I believe Judge [redacted] has violated the attached Judicial Rules of Conduct. They have befriended the judge for [redacted] basically to be able to get close to him and the Judge being a Judge should of known that this type of scenario might arise out of being a Judge. I do not know what kind of reprisal should be done but the Judge should use caution because he spends his free time with people that have organized murder, have committed murder and are of substantial negative character and have unlawfully affected judicial proceedings.
