

State of Arizona
COMMISSION ON JUDICIAL CONDUCT

Disposition of Complaint 15-171

Judge:

Complainant:

ORDER

The complainant alleged a justice of the peace was biased against him during an order of protection proceeding.

The responsibility of the Commission on Judicial Conduct is to impartially determine if the judge engaged in conduct that violated the provisions of Article 6.1 of the Arizona Constitution or the Code of Judicial Conduct and, if so, to take appropriate disciplinary action. The purpose and authority of the commission is limited to this mission.

The commission does not have jurisdiction to review the legal sufficiency of the judge's rulings. In addition, the commission found no evidence of ethical misconduct and concluded that the judge did not violate the Code in this case. Accordingly, the complaint is dismissed in its entirety, pursuant to Rules 16(a) and 23.

Dated: August 19, 2015

FOR THE COMMISSION

/s/ George A. Riemer

George A. Riemer
Executive Director

Copies of this order were mailed to the complainant and the judge on August 19, 2015.

This order may not be used as a basis for disqualification of a judge.

LETTER TO THE HONORABLE JUSTICES ABOUT A COMPLAINT

TO THE HONORABLE JUSTICES:

The reason for this letter is to file a complaint against a judge by the name of, . This judge was rude, bias, one sided, and her conduct, along with her behavior was very unprofessional as a judge. This judge needs to be reprimand for her actions. This happened during the hearing on . The judge should have listened to both sides.

After the hearing I tried control my depression for what the judge did. I increased my medication and it didn't work. I had to admit myself or to because it affected . I was then placed in I and questioned about what happened to me. I informed them about everything that happened on . They informed that the I could have damaged and that I would need to stay in the so they could monitor I was released on at my request. Reason being, I'm the only one that knows and what she needs to take. If necessary I can provide you from the when I was admitted.

the individual that served me, has a control problem because she was once and now is in the has a serious problem wanting to control me, but that doesn't work for me. If really cared about she could have requested that the be placed on her file in case she needs to use it.

When I was served with by in which she was probably assisted by her partner Before I was served, sent me a threatening text message. He stated, who do you think you are, and stating that you will hear from my attorney. I replied back to him by text and informed him not to call my telephone numbers or send any more texts messages. My first response was to block telephone number and telephone number on the house telephone and my cellphone. First of all has no business getting involved in our affairs, or because he is not related to any of us. So what I did was purchased a

new for she could stay in touch with whomever she wanted to.

While the hearing was on, I tried to speak because was lying and I wanted to indicate that. When I made a statement the judge told me to shut up. The judge never allowed me to present or introduce documents proving that was lying. has lied to the judge and also the court, besides she has already to her attorney. The judge didn't allow me to speak about truth because I did not have attorney. I could not afford an attorney because I am I feel that the judge violated my civil rights.

Previously served with and the Case No. but when it was not valid I then contacted for and spoke to about the The first words from, are going to sue us? My reply was no. She informed me if does this again you need to call me. served me again on and the Case No. I informed at like she requested the first time.

I would like to also state that, has being looking at our personal information on account and on account at because she has provided information that was only at She provided this information to that I borrowed from which I never did. The only that my gave me was for a which I told him I didn't want because of any problems it may create for me. He deposited the amount of to my account at He told me that because you take very good of and nobody helps you. And I'm proud of you for all that you have done When his was informed by she called me at home and said to me, you I was in shock when she called me and said what she said to me. My reply to her was, look you don't call my telephone number again and I hung up on her. I had her on speaker phone could hear what she said to. Then called me and said, what do you want My reply to him was you said to keep you informed about I told him listen to me you don't call my house every again and I hung up him. He stated that said I told his that he was dying. First all I would never do something like that. First of all his indicated that he was and was very skinny. So what my did was request a by sheriff's office. is my witness that I never said what his and so is because she was present when the call came through.

When I was served with the I couldn't request a hearing. Because mother was still not in a right frame of mind, while at the nursing home. I needed to be present in case they wanted to ask me for any permission to do any testing went to for several weeks. The reason being is I had a major responsibility because I was given a, POWER that is dated which was issued by while was in in case it was ever needed for her protection. This was done since didn't have one at the suggestion

When I was served with I went to the police department and they advised

me to go the court house and request a hearing. They didn't give enough time get an attorney.

Before went to the hospital, a neighbor by the name came over after I called her to see She stated you need to so they could When was admitted on to is because she was in and placed in the because she was given that caused her condition. While she was in the for she developed The doctor that was taking her to the told me let us place her in her We will then come and get you so that we can show you what we mean I was there until after being there since early in the morning. Once was she was placed in a for weeks. I was there every day until I felt the need to go home.

While I was there came to and when she saw all the equipment on and on said to me, you remove from the right now. My reply was what did you say? repeated the same remark, I then told her in a loud voice. and don't come back. While she was leaving, the of asked me what happened. When I informed her what said, the asked if I told her anything about her condition, I said no because the that you don't have to tell them anything because of will protect you from releasing information. When this happened, I asked what I can do to prevent any nobody from The informed me to create a password, that only you will know and don't give it to anybody. So I did that and gave it to her, so no one could come without me being present.

First of all I informed that if she wanted to be there when the informed me about Please come and hear for yourself, but her reply was I have to work. My reply to her at the time was you have been with for a long time. I'm sure you have plenty of sick time and vacation.

called my requesting him to revoke the replied to you're the and you're really stupid, because nobody can take that The only person that can revoke that is or decides that any more. But I don't think it up because of the way you responded when you saw

Then once she was released from she went to at was at for several weeks. While was at my and her along with were there with me. The first room they in had because and stated the room So I went to and told them that had They indicated to me they would to as soon as possible, but it took forever.

had requested from me, that she wanted I was told she would have to wait until tomorrow. I then replied no, she will have one today. When they said, that her day is tomorrow. I went to the director and informed her, that She assured me, that she will get before you leave.

I was like on a duty when I am stating this because I received a call one morning that . My reply to the person that called me was. The response was and nobody responded to assist So that's when

When this happened I decide to start staying longer and to go to let me know and I would look at my watch and It took them before someone actually to respond. When that happened, I went right to the in charge and informed her that it Her reply to me was I don't have enough staff to help. I then told her that is not my problem. I informed her if I need to and to tell them what this is doing. I informed her you don't want to step on my shoes. I will do anything when it pertains for when she I informed that I was keeping a log of

Then into and When I walked in she was Then informed me I was very mad and I walked over the and requested to and was informed that she was in a meeting. Well get her now or I will call her attorney and nine on your side about what just happened. I informed the under her I told the director any more problems and you will hear from me,

Then all of sudden showed up at My reply to her at the time was, it's about time you came to was very sarcastic in her statement; she stated you know I have to work. My reply to her, oh I thought you but you're But that was not what she indicated to me previously before. Her statement was keep me informed But I didn't inform her because, I didn' at all because of previous remarks she made when was at

The first words, out of her mouth were. I indicated to her that she did not want to do physical therapy. When they informed me that want to do I used I informed them when said, I don't want to, I don't feel good, and want to stay in To tell her, your said that wasn't acceptable answer. didn't give me a chance to explain as to what I, informed the and the Her first response from her was the controlling individual she is even though was not still in her right frame of mind. This why I don't tell her anything, because she has a controlling problem when approaching a problem with the . When she was I immediately got up and walked over to the and as to what was doing The

informed me, tell her to leave right now At the advice of the social worker I walked over to and told her to and not to come back. replied back and called which I answered back and called her a She stated that I tried to grab her but that I wasn't able to get her. That is another one of lies that was indicated on the dated

left and then the next day is when she went and obtained the which was dated Case No.

First of all I am in possession of all from the beginning when she was first at and when she went to until she was released to me. I also have the documents went to on thru I have these documents in my position to prove that, I am telling the truth and not lying like When was released from I was informed not to leave unattended. indicated that I was chasing her to her where she lied again on the second

On had to go by to the which was because she was bleeding so severely, that the could not stop the bleeding. When that happened, I made the mistake of calling I have tried to be with but I just don't trust her at all. While in the room, tried to me by saying, and don't be scolding the When made that remark, my reply to her I will deal with you later. So I stayed outside the because, I'm the one with of I was informed to stay close by in case they wanted to ask me for any information or to make a decision that needed to be made. Since I'm the one who knows all of and take care of her. I didn't want to be around because she wants to boss me around. That will never happen because first all none of helps I have asked both also to help me but I get the most from After all has always been there for the First of all I couldn't alone when she was released on because she had a on the to on I am in position of documents from for the day of her discharge, which came with strict in instructions.

When that happened I called, and informed her to not come to the again once she left. I have had problems with also because being that she worked at in You would think working in a hospital and seeing what comes in and infections that around the hospital you wouldn't bring your with her Sometimes doesn't have any common sense, when a proper decision that needs to be made. came with her and to the hospital when they had the and This happened while mother was at in the trauma unit.

I was not at the hospital when this happened because I had been there every day since mother was
