ORDER

The complainant alleged that a Justice of the Peace was biased against her, denied her the right to be heard, reached improper legal and factual conclusions, altered tape recordings, improperly had her removed from the courtroom, failed to disqualify himself, failed to provide her representation, and denied her basic fairness.

The responsibility of the Commission on Judicial Conduct is to impartially determine if the judge engaged in conduct that violated the provisions of Article 6.1 of the Arizona Constitution or the Code of Judicial Conduct and, if so, to take appropriate disciplinary action. The purpose and authority of the commission is limited to this mission.

The commission does not have jurisdiction to review the legal sufficiency of the judge's rulings. In addition, the commission found no evidence of ethical misconduct and concluded that the judge did not violate the Code in this case. Accordingly, the complaint is dismissed in its entirety, pursuant to Rules 16(a) and 23.

Judge _____ violated Canons 1.1 and 1.2, 2.2, 2.3, 2.5, 2.6, 2.7, and 2.11 when treating me as a litigant abusively and with discrimination according to _____ and as a _____. The case was completely fabricated and stated he believed it because the one _____ of witnesses and _____ but the organization that officer belonged to were my _____ for _____ issues in _____ Court. He consistently failed to be impartial in this manner through hearing and supposed _____ that was a _____. He tried to deny me to cross examine the most important witness that was the primary violator with me and my _____ the true victims, and even tried to stop me from testifying on my own behalf. He consistently interfered with my attempt to cross examine witnesses and my own testimony, stopping and controlling my ability to get to the truth on cross examination and my own testimony.

He refused that I was entitled to a _____ in my favor that would completely disprove the whole case. testimony that would support my side were also failed. I had asked for a continuance due to falsely adding more charges when he came on the case. His prosecutor and himself, and the parties on the other side were all from the same _____ that don't believe _____ and ordered me to Court on _____ and the day after _____

He failed to continue or grant my request because Prosecutor lied and said I had called asking when that time hearing was. Not true.

I had filed a Special Action to the _____ Court against his Court before he came on the case, and I was told by another prosecutor prior that they couldn't run the case _____ Court. A criminal law specialist has _____ against now told me that the case should have _____ I even filed to me _____ Court about it to the Judge on the _____ and the Presiding Judge, but they also failed integrity of the judiciary and following the law. _____ Court

Judge _____ denied me to present a _____ because it addressed case law provided in the statutes for the each false charge. _____ attorneys primarily told me it was _____ case and that they wouldn't represent the case because they only practice _____ law. Judge _____ appeared not to understand the foundation of the case that was used to attempt to provoke one false charge against me, but failed. However, due to his extreme misconduct I believe he was corrupted. *He continuously denied the true foundation of what created the case, or continuously refused.*

Tape recordings were altered. After the first hearing with Judge _____ as the _____ Judge on the case a party from the other side that were my Defendants already for the same type of offense that was used to falsely create this case was running up to the front of the Courtroom _____ prejudicial statements against me. Judge _____ failed to correct _____ and was abusive to me when I was objecting standing at his _____ but then told me this case may very well be dismissed at the next hearing. I obtained the tape recording, it was altered and the Judge had to be involved, because instead of what really happened it was set up as the Judge asking the questions and she responding calmly and then one to the prosecutor when he was originally asking the prosecutor all questions and is when the individual originally ran up to the front of the Courtroom ranting untrue prejudicial statements about me. Further, at the next hearing he tried to say he didn't remember and the prosecutor stating she wasn't there because it was a different one. *like it was about her and not the Judge.*

At the end of every hearing he had me removed from the Courtroom for no proper reason, except one when I told him I would be filing a judicial complaint. No other Judge had ever done so prior and were female. At the end of trial when doing so I told him that was fine because I had heard enough fraud for one day, he further threatened me.

The Judge would make statements of his own personal opinions and especially at the end not accepting case law rulings about charges, of which there was no physical evidence anywhere proving the case beyond a reasonable doubt because it was all fabricated.

It took almost finally obtain the tape recordings of the trial and proceeding after my was due, and had refused to produce them and then gave me invalid recordings, and I had to sit with the in order to finally obtain them. They needed the time to alter the recordings after I every witness about lying under oath in my that the Judge failed to ever respond. I also sent one to the Presiding Judge but she failed to respond also.

I also filed a for Judge that he failed to cooperate. I had contacted his law firm about a case before he became a Judge, and that is the issue of the with complete denial of due process and unconstitutional Court procedures with even a Court employee lying about an important issue. I discussed the disqualification request with the Judge verbally and his primary response to anything that I tried to properly discuss with him was repeatedly "I don't care, I don't care, I don't care" to everything. There isn't one item of fairness he ever provided me or listened to and accepted, instead he made antagonistic remarks like he was giving me advice.

He failed to provide me representation when I informed him that I was the that I contacted his law firm about), and haven't been able to work due also to intentionally failed healthcare and also causing me to have to engage with that were inhumanely while charging me

On the recording at the end of the trial after the judge told me to leave, there it was the asking the judge for to These people are frauds and the whole case was fabricated, but the Judge did not listen to my case while controlling my attempt to speak for myself and if competent should have been able to determine what many attorneys said to me about not being criminal. It was ridiculous and a Instead he refused and said to party's that i cared too much about mv when they illegally cut me off from him so they could

that they didn't to accomplish with a prior episode of the putting her in the Those cases were also deficient of due process and ignoring my appeals. The Court seems to be partial but also this Facility's law firm that appear that instead of providing a defense for their clients they harass the Plaintiff and corrupt the Court.

I will stop at this point, but I think this should be enough.
