Dear Commission on Judicial Conduct

2016 - 193

I file this new complaint of different grievances Against because of the violation of the:Arizona Rules of Protective Order Procedure, 17B A.R.S. Rule 41.Motion to dismiss, (c)Not making the request under duress or coercion.

I was coerced by on the Motion, during the final hearing in case

- He coerced me by his actions and statements that he would only make a ruling on the : only if I allowed the Protective order to be dismissed. His coercion would violate ethics codes and he should not have used the motion to dismiss a condition to making his ruling, and order the Decree.

A judicial officer(Judge) should not make such unsubstantiated statements because of the potential harm it can cause to ones safety outside the court room. and I also create the possibility, with this filed document the possibility of the abolishment of unconstestable evidence, in the form of Oral statements committed by Judicial officers during hearings.

- Also during a hearing he made false statements in open court that have no thruth in it. He stated " , I have never been arrested for can give testimony to the fact. also took the liberty of creating elaborate details to add substance to his false statement and it is an outright disrespect to the citizens of that voted for him.

The confirmation of his false statements can be obtained through official court recorder recordings in the
