any documentation I presented to the court in regards to the harassment the judge basically refused for example I screen shot a google image of the defendants home showing where I was at the time. of the incident it's a matter of public access the judge stated why do you have a picture of her home? I stated it was a satellite view I got offline she seemed very hostile toward me. she allowed the defendant to continuously interrupt me but when I interrupted the defendant I was yelled at she gave me attitude and I felt the case was bias and prejudice mind made up before the hearing started. I had sufficient evidence to keep the order in place and never presented one piece of evidence on the grounds to dismiss she played the sympathy card and went along with it very unethical now I have to deal with the continued harassment because the judge played off her sympathy what about the safety of me and my kids!
