ORDER

The complainant alleged three superior court judges engaged in fraud and corruption.

Accordingly, the complaint is dismissed in its entirety, pursuant to Rules 16(a) and 23(a).

Commission member Art Hinshaw did not participate in the consideration of this matter.

CASE#

This complain to that I am filing is against judge _____ And also judge _____ and also _____

It appears that the _____ of these _____ have been taking part in some sort of Fraud or corruption within the _____ Division at the _____ in _____ .

Together these _____ listed in this complaint, should be held accountable for the violation of my civil rights under the 14th amendment also for the violation of due process under the 14th amendment Also for failure to observe oath and bond by violating local federal and state statutes.

When a judge acts intentionally and knowingly to deprive a person of their constitutional rights the judge exercises no discretion or individual judgment. He acts no longer as a judge but as a minister of his own Prejudices. (386 U.S. 547, 568)

A Judge is liable for injury caused by a ministerial act and to have immunity the judge must be performing a judicial function. [See ex parte Virginia, 100 U.S. 339, 2 Harper & James. The Law of Torts 1642-1643 (1956)]

The presence of malice And the intention to deprive a person of his civil rights is wholly incompatible with the judicial function. When the state in the instant case is one of the perpetrators and violators there can be no expectation of just indeed any relief from it. The state cannot cause a federal violation, and then try to prohibit lit against from seeking redress in the federal courts for those same Violations.

The state cannot violate our fundamental rights, and then trying to have us dismissed out of federal court even for seeking Vindication of those rights.

Further, judicial immunity does not exist for judges who engage in criminal activity, for judges who connive with, aid and abet the criminal activity of another judge, or 2A judge for damages sustained by a person who has been harmed by the judges connivance with aiding and abetting Another judges criminal activity. In this case it seems as though there has been Some conspiring an ex parte communications going on between the other party _____ the petitioner, and the is _____ listed in this complaint. For them to allow _____ to get away with not serving me where mailing other documents that he files within the court as copies to me that is against this court's rules and procedures for For _____ .

Also judge [redacted] has approved a fraudulent child support order that [redacted] has filed without my knowledge therefore not giving me a fair chance to even object. The current child support order that is in place is far below the state of Arizona's guidelines for child support and it goes based off of [redacted] is worksheet that is fraudulently done as he has gotten a raise and this was noticed after our trial date of [redacted] in which I Objected to and filed a motion asking to set aside orders based on Fraud and based on the ex parte communication between the judge and [redacted]. But of course because it's him judge [redacted] that's taking part in this he denied my motion therefore eliminating the possibility for me to be able to appeal because in that motion I had asked for more time. It is said that pro se litigants are not to be held to the same standard as attorneys when filing these motions and I had stated that I had provided the other party with copies through the US mail and did everything that I was capable of doing so as my right to be employed or have a job was violated by what was ordered in this child support order. I don't feel that I will ever be given a fair chance to file And to be heard in [redacted] court because there is a ring of judges that are protecting one another from People like me who will fight and defend their rights. By judge [redacted] signing this child support and and in accepting this as an order is fraud upon the court when any other party fraudulently files something in an attempt to make the court rule wrongly in their favor and the court does they have participated in front of the court and I seek to have this judicial commission charge this judge with all the wrong doings that he has caused me because he has taken my children and I out of an established residence in which we've had over a year he has caused us to become homeless potentially because there is no state aid available to help me in such a short notice and without me having family or friends here that I can turn to this act in which they have both Taken part in is just sick and cruel. It almost appears as though there is some sort of money bribe or conspiracy of some sort going on because when I confronted [redacted] about this issue it's almost like he is certainly positive that this will never get reversed as I had expressed to him that I was going to petition the court to get this changed. I have yet to get it changed because in the process of preparing these documents I have learned that judge [redacted] has now [redacted] because when I filed a complaint with the [redacted] over this issue because I felt that there was more going on than what I would be getting protection from this judicial commission because I'd how do I know that you guys aren't even trying to protect these judges? When I filed the complaint with the [redacted] I received a call on [redacted] in which came up private on the Caller ID it was a man who gave his name as [redacted]. I asked again what is name was he again told me [redacted] I said no I want your 1st name not your last and he said oh it's [redacted]. Now learning that there is a [redacted] that is in our [redacted] courts as a judge I'm not to sure what to believe anymore and I don't feel safe I feel very violated and I feel that nothing that I do or say is going to reach the proper people in order for me to be protected by this kind of crime or corruption. I also list [redacted] in this complaint because it seems that him being the one who has signed and [redacted] all of the things that are filed by myself or [redacted] I feel that it is his discretion to allow such things to be filed and for them to know that my address is protected therefore [redacted] is to be giving copies to the court in order for them to file or serve me with and it's not happening there's a reason for this and I feel that all [redacted] of I listed are judges within the court and I feel that they're protecting one another and conspiring against me to give [redacted] whatever he wants and for the court to order or rule in favor of him.. His petition should have never been filed in the 1st place there is never been a continuing circumstance in order for him to be able to file something like this when he voluntarily quit his job in [redacted] therefore decreasing his pay and his time with [redacted] on his own free will. I testified to this fact in our trial and I also testified to the fact that he has been fraudulent Li filing things and also filing false [redacted] and police

reports against me in hopes to gain A better position for himself within our case. I feel that judge has blatantly disregarded all evidence that I filed all testimony and has ruled on our case with a set of rules of his own . I understand that these court judges have wide discretion in order to roll upon these cases but what he has done Is he has taken part in a criminal scheme and I refuse to even file anything at this point in time which is taking away from my time to be able to appeal again because of the sick Corruption that is going on within this court.

Everything that I have filed thus far on my case has been denied. Judge has allowed court to threaten me to fail to conduct interviews and read my documents in which words necessary in the whole reason for The court appointed adviser to be appointed in the 1st place it was her job to meet when both parents and to conduct interviews that were equal without any bias. The cost was per person me being unemployed I paid my fair share because I thought we Had to when it came time for to do his he got it OK By the court not to pay his share in which that was another ex parte communication that he took part in with judge and failed to provide me copies of everything he filed and the judge also failed to notify me and that was accepted as well. Had I been given copies were provided the documents that he filed I would have known that it was OK for me to object or I would have been able to ask for a refund myself therefore I brought this up at our trial asking for the to be refunded to me because conducted a one sided investigation in which she only interviewed the other party and his witness his mother failed to provide me with a copy of the report she failed to interview my witnesses and she failed to read my documents therefore I asked for a refund and the judge denied that. I also wanted to file a report against because threatened me I right before our court date in time that we had to be there she threatened me saying

. Right from then on I knew that there was something wrong and I knew that this was all one sided for a reason like I said I feel that there's some sort of bribe or there's some sort of conspiracy against me to give whatever he wants and to rule in his favor I also asked for her credentials to be able to file the report and the judge denied that dismissing her from our case and I felt that he did this just so I wouldn't find out who she truly was or that she didn't have the proper education because she doesn't even

. I have a right to know who is Coming into my home and in a sense possibly interviewing and getting into our personal life as it stated on the requirements and I feel that judge has Abused his discretion in dismissing from our case without giving me that information. I have also found out that were therefore I know they have some sort of friendship or something going on especially that they're in the in the even andI have also since been made aware that as it shows when I did a search for to find out who they were and if there wasAny sort of of some sort this is what I found therefore I do know that have chins being the I do believe in for my case I do believe that there is a lot of bias and a lot of discrimination towards me therefore that is why I'm filing this Report.

If this judicial commission would like to seek more information for me I will gladly testify to the same information that is in this notice or complaint or I will gladly provide you with more details if necessary but it is very important that this information be looked into thoroughly and in fact I'm not quite sure

that you will understand cause I know it seems like it's kind of jumping around a lot but this complaint is important to me because I need to be able to file things within this court feel safe within this court and as of now I don't. Judge [redacted] has also allowed the other [redacted] to threaten me in the court room after our court date on [redacted] in fact [redacted] filed a motion to close the court room to the public because I felt that I needed to be there in person and I needed to feel that I could testify or get up on the stands and feel safe and comfortable and have a fair trial but he denied this motion as well didn't even rule upon it until the day of our hearing [redacted] therefore I don't feel I was given a fair trial because he allowed that person to be in the court room to where I felt intimidated humiliated and unsafe.

Coming to a close was the under advisement ruling in which I had testified on [redacted] to the fact that [redacted] had been hurting [redacted] medicating [redacted] with medicine for [redacted] without telling anybody he only told me the day that [redacted] afraid he was going to get caught. The same situation happened to a family in [redacted] and the [redacted] had ruled with

medication that my [redacted] even though it was in the past he still shows signs that he is unable to [redacted] making those kind of decisions in the 1st place especially with a history of domestic violence a history of alcohol abuse therefore I testified and I asked for so custody and judge [redacted] had given us [redacted] joint legal decision making instead the case that I reference is

Therefore again abusing his discretion. I understand that judge [redacted] doesn't have training or never studied [redacted] therefore I don't feel he should be making decisions when it comes time to making ruins for the [redacted].

I am not trying to appeal the decisions he's made because I know that is not the place for this to be going on what I am doing is laying out there for you to all see what he has done what he has ruled on and what is not doing properly within that [redacted]. It is my right to file this complaint and to not have any backlash from doing so it is my right to voice my concern over the [redacted] that are listed in this complaint as it does come down to making this judge rule in my case therefore all [redacted] of them and my ex need to be brought out to the light because it is affecting this judge and it is affecting the way that he handles and manages cases. I promise that everything I have mentioned in this complaint is true to the best of my ability with what space and time I have and as best as I can bring pro seI have to be able to file this and im positive I did my nest I msy have left parts out but this has my mind spinning as to what needs to be done how needs to be done when etc. Im a [redacted] no time for games and this game they want to play is against what this court says its rules of procedures are. there is a lot more But like I said I feel like I'm wasting my time because I don't feel that I will get any relief or Justice because of who I'm complaining to I feel like you guys might be protecting these judges as well therefore if you have any questions or concerns please contact me so that way I can further provide details if necessary I know it seems like a lot but there is is a lot that's happened and I will be glad to provide you with any other information you might need in order to Conduct a thorough investigation. I feel that the media needs to be aware because I feel that the public needs to be aware of what is actually going on with in this [redacted]. I have read and I have researched I have spent countless hours behind this computer and in libraries trying to justify if I was making proper claims of judicial

misconduct and I am 100%. How you guys take this and how it's investigated will also give me more insight on just what is going on therefore I pray and I hope that Justice is given to me and to others and I pray that this complaint is taken seriously 250%.If any of these judge dont have training in this area for division within the court and what in the h* are they doing making decisions for how is it possible that these judges are able to sit on that bench and tell who is better fit to be a parent when they haven't even studied anything about domestic violence about parental alienation about how style aggressive parenting I am appalled at the events that have taken place by this judge and by others I've listed and I can only pray that I see the end real soon to this nightmare.**

Sincerely,
