There must be clear and convincing evidence of such a violation in order for the Commission to take disciplinary action against a judicial officer.

The Commission does not have jurisdiction to overturn, amend, or remand a judicial officer's legal rulings. The Commission reviewed all relevant available information and concluded there was not clear and convincing evidence of ethical misconduct in this matter. The complaint is therefore dismissed pursuant to Rules 16(a) and 23(a).

Father and wife were smoking and doing drugs with my other present regularly, knowing she was having breathing problems.

There was allegations and I reported 1time of my being molested while in the father care. Police had been involved about the molestation but since my child according to hospital records suspiciously- un naturally passed away in less of arrival and less then a after being placed in father care, however was cremated (with the father knowing there was burial spot already paid for) case could not go forward.

Sole legal decision making is for when a child is alive, this does not pertain to a deceased child. It's for the children welfare or best interest while living.

My rights were and are not terminated or servanced there-fore this judge had no right to deprive ME, MY CHILDREN and other family members of the right to have a funeral, view my baby body and ESPECIALLY a burial for my child.

This Judge authorized for my child to be cremated. My family and I are so hurt and devastated. We have nowhere to go to grieve, no remains and no opportunity to even say good-bye due to this judge and his court investigator un-ethical bias and un-human actions.

Since then the other ended up back in because fathers family reporting live being molested and father neglected her medical needs, domestic violence and suspicious activity as to the death of other
