The Complainant alleged an appellate court judge rushed through the disposition of his pending matter. The complainant also alleged two appellate court judges improperly handled the disposition of pending bar complaints.

The role of the Commission on Judicial Conduct is to impartially determine whether a judicial officer has engaged in conduct that violates the Arizona Code of Judicial Conduct or Article 6.1 of the Arizona Constitution. There must be clear and convincing evidence of such a violation in order for the Commission to take disciplinary action against a judicial officer.

The Commission does not have jurisdiction to overturn, amend, or remand a judicial officer's legal rulings. The Commission reviewed all relevant available information and concluded there was not clear and convincing evidence of ethical misconduct in this matter. The complaint is therefore dismissed pursuant to Rules 16(a) and 23(a).

To my complaint concerning [redacted] The [redacted] Court I believe involved in connected issues to general situation including the handling of my complaints at the [redacted] but the situation generally and aware that the servicing I have received compromised by corrupted investigations and government officials - some of whom are again former peers from [redacted] and their secret society (which I believe grants members government clearance) and malicious relatives or others from [redacted] who work as informants and confidential government employees for local law enforcement, fbi, dea etc but also including for foreign governments such as [redacted]

While there is a case with [redacted] and [redacted] court the other case referenced is a writ of habeas corpus, at [redacted] Court, In the Matter of [redacted] on Habeas Corpus, Case No [redacted] where I was wrongfully imprisoned in a situation where in [redacted] county those involved targeting me in open discoveries are able to engage in torturous abuse and harassment while pre meditating abuse of the mental health system and much revolves around the domestic abuse and violence stemming from those in home environment maintaining open discoveries. They lie to [redacted] me, but in [redacted] County their local law enforcement also maintains open discoveries including the [redacted] PD and [redacted] team. The [redacted] complaints I made have a major impact on legal paradigms and this occurred when I referenced a case with [redacted] in my complaint concerning [redacted] of [redacted] County Counsel. It was a case concerning the suicide of [redacted] son. I used it because I recognize in a system where I am being targeted by those in open discoveries there could be mandates of disclosure dependent on issues of subject matter and hence was looking for a way to address [redacted] However, instead it prompted a severe abuse episode where [redacted] and [redacted] lied and it seemed opportune for the [redacted] pd and [redacted] to go along with it because they also maintain open discoveries. Once in the corruption continues at [redacted] Hospital and I am held there for over [redacted] by Dr [redacted] who not only lies during this writ of habeas corpus case but on researching him after, he actually is a dr with ties to [redacted] and could operate in insider system with other confidential government employees of various nationality and could be bribed by those involved such as [redacted] whose son [redacted] I know from [redacted] and has links to [redacted] Please refer to my [redacted] complaint concerning [redacted] of [redacted] County and [redacted] of the [redacted] Court as more concerning is [redacted] corruption stemming from them. The judge of Case [redacted] I have a [redacted] complaint as clearly involved also. I have not been informed of section [redacted] surveillance but believe this and other forms of overhearings etc a major undisclosed issue. After this case, and my release I received phished compromised emails from [redacted] indicating his complicity in same system. County is a cesspool of corruption maintaining the human rights abuse I am being subject to. However, other groups involved like [redacted] are aware and when I am subject to injustice no one intervenes and I was wrongfully imprisoned by the mental health system and it handled the way they handle everything else where those in open discoveries just modify their corrupt system. Corruption rife at [redacted] Prior to this they hired former [redacted] director who is responsible for targeting me in an open discovery prior to dealing with [redacted] and no history of psychological problems because they intended to severely torture with pre meditated plans to abuse mental health system in [redacted] County. They then hired [redacted] a nurse from [redacted] County who was apart of first instance I was [redacted] when [redacted] and [redacted] lied and the [redacted] pd

and (clinician left after) and they had a preplanned event and their disturbing behaviors continued at and there was clearly subject to a internal proceeding after where witness and participant in corruption was relocated to hospital. It is not clear if Psychiatrist a confidential government employee or foreign operative but also corrupted. The difference here, it is county organization with a corrupt DA maintaining a corrupt open discovery and internal investigation while promoting system of torture I have been subject to while trapped inside of their county. Furthermore employs whose son now a doctor at was a peer at I spent time with and someone involved in takeover. There are other cases at Court also ongoing including v case no. that is initiated by same group who amidst torturing me can plan and execute negative events. Please refer to complaint concerning

Once again, I am being denied justice by those isolating me. It is for the sole purpose of their ability to torture and not intervening in my matters appropriately but has benefitted from the associated corruption. As this is ongoing note once again, those involved severely isolating are severely torturing me. I don't know how to emphasize the severity of their human rights abuse, but it is known behavior they have botched my surgery, maimed my body and surgically altered me for and have me trapped in a small room where they altered the electricity to amplify their torture. They are very cynical sadistic people and because of corruption of government officials and how closely they conform to violating laws they are likely making a mockery of justice because my life is something that people are able to do incredibly sick evil things and instead of punishment they get powers privileges and rewards including more state power. The maintenance of the shackles of their abuse and torture continues but lawyers involved in issues that directly shows the greed and selfishness and corruption of those involved. They are severely torturing me, they are flagrantly using powers given to them for their profit and gain and are able to steal and confiscate money, embezzle and bribe using the powers of the state afforded to them. Meaning it's financial crime being facilitated by people who obtained government power to severely torture me and ensure their impunity and I believe some actions compelled by this complaint and they are conforming to activity where those involved in the shockingly corrupt shockingly exploitative are able to lie and ensure that their heinous human behaviors are covered by ensuring that their evil can never be spoken of or deal with. meaning if they don't get what they want they then silence those involved and repeat it. As this occurs the severity of their torture increases which I have once again they have maimed my body, surgically altered me for and I am trapped in a small room where they altered the electricity to amplify their torture and abuse as they utilize voice to skull and cortical modem and electronic weapons (severe aggravation to ear, creating sense of molestation etc) but it is total sensory abuse that extends beyond their maiming and assault to my body but again from other people, and behaviors that are timed planned scheduled and coordinated using technology also. . Once again I have never mentioned this in any situation in which the mental health system abused but rather those involved activated their intensified torture AFTER they began abusing it and even then I have never mentioned it. It's that they are severely torturing me with this intent and have lied to actually abuse the system but once they do the system is severely corrupted.

For further reference regarding the situation here is a complaint I made to that connects to the situation:

is another trust lawyer but now based in but also connected to - domestic states where there are not only favorable trust laws but matters ongoing connected to severe human rights abuses, torture and takeover of associated IP and much of the financial crime linked stems from those involved who have obtained government status and clearance so they can abuse power and

investigations in order to confiscate money which they launder, embezzle, bribe etc etc but doing so with the powers of the state and it extends to not just domestic agencies i.e local law enforcement, FBI but individuals who also operate on behalf of foreign governments for example [redacted] advertises that it does not have a military presence on campus but in fact I believe it is fraud and groups like their secret society [redacted] but also foreign military like [redacted] recruit for [redacted] One example, is [redacted] board member [redacted] of [redacted] I pick up [redacted] in cortical modem, which allows them to do things like create sick disturbing sensations like a sense of molestation but there is a link to internet and continuous negative dialogue that also operates in conjunction with other forms of torture they maimed my body and surgically altered me for and once again altered the electricity in the small room I am trapped in for torture into a literal torture chamber. They are very sadistic and very corrupt, and believe they conform to patterns of activity where they actually are aware of these laws and have willfully committed the crimes conforming to torture law because of they are making a mockery of justice (i.e for example with torture law they have physically maimed my body, they violated me during surgery and botched it but implanted technology to torture also physical abuse to amplify psychological abuse, torture chamber, but they have a long history of setting rules in place also to inflict distress and harm on my life but they might be breaking human rights law and other laws on purpose because it conforms so closely to codified rules about torture) but sometimes very rarely it is positive sensation and how I first noticed it as I was literally knocked out into a state of positive catharsis. I believe there is a literal link to the feelings produced and their efforts to cut off digitally meaning there is a trap trace that effects me physiologically. They program things digitally also to coincide with their total sensory abuse. It is mostly very horrific, disturbing sensations and your whole body feels aggravated and cut off from itself and they often cut off things like sexual response which has a very disturbing impact. But because I am being tortured, I don't know if the rare moments there are positive sensations I don't know what is actually happening. But [redacted] is something now being programmed. It is a very major aspect of what is occurring and likely explains their abuse of the mental health system but once again I have no history of mental health issues and I only noticed AFTER abuse of the mental health system began by those involved in home environment and those monitoring are severely torturing me. However, at times I lay down it is positive and sometimes I also I pick up polite respectful conversation of discovery of [redacted] (who I would not ordinarily support politically) and I don't know in cortical modem but those involved utilizing it commit fraud but it is a very rarely direct information that I can understand and everything conforms to the same sick system of indirect harassment and abuse and hence it is very horrid to experience but when it is direct information I believe it is fraud for example, false promised of being able to leave [redacted] as if I would finally be informed. Voice to skull is a known technology but the cortical modem is a also real technology that those involved have utilized to torture me but interacts with the invented process that I developed that those involved who conspired to torture and isolate me never planned on. There is likely much more money and many more individuals linked and they flagrantly lie, flagrantly commit fraud to steal money but do so by corrupting internal investigations because they are corrupt government officials of varying clearance level and nationality, and they confiscate money and conduct internal investigations knowing that those conducting it are facilitating a sham. For example, relatives like [redacted] who obtained status as a official to torture me and others he connected with like [redacted] who married into [redacted] citizenship and also operates as a [redacted] official (I always thought he was [redacted] but I don't know if he is also which would mean he would have dual citizenship and could be recruited by [redacted] but his friend [redacted] s not and [redacted] has links to [redacted] troopers and the fusion center but also [redacted] but they were in [redacted] trat whose members also maintain an open discovery and I don't know if they are all apart of the [redacted] secret society whose members are stalking and torturing me and grant government clearance. [redacted] who was in other frat where this occurs [redacted] and apart of [redacted] and [redacted] and not sure if there is an American presence as the CIA is a group that was allowed to recruit in career week and hence I don't know how intelligence agencies fit technically but University was not a safe place for me especially with people like [redacted] or others from [redacted] able to stalk me and violate my space and privacy to enlist others doing the same. With other people stalking me, I don't know who the source of recruitment is but they utilize their power for financial crime and torture and they interact amongst themselves planning and conspiring to steal money which is linked to my ip but also money I believe from various investigations etc as any domestic group would need to place money in a trust of some kind and there are likely laws ensuring it is domestic and in reality there are very good options in the united states. I believe this occurring and these two additional attorneys aware. Once again after receiving phished communications from [redacted] on behalf of [redacted] they had him change position to [redacted] and it is one firm participating in open discoveries linked to takeover and those involved isolating and torturing me. [redacted] and [redacted] were at [redacted] but recently set out in their own private practice and believe some of their decision in light of my
