ORDER

December 8, 2021

The Complainant alleged that a superior court judge violated the law and was biased against him.

The role of the Commission on Judicial Conduct is to impartially determine whether a judicial officer has engaged in conduct that violates the Arizona Code of Judicial Conduct or Article 6.1 of the Arizona Constitution. There must be clear and convincing evidence of such a violation in order for the Commission to take disciplinary action against a judicial officer.

The Commission does not have jurisdiction to overturn, amend, or remand a judicial officer's legal rulings. The Commission reviewed all relevant available information and concluded there was not clear and convincing evidence of ethical misconduct in this matter. The complaint is therefore dismissed pursuant to Commission Rules 16(a) and 23(a).

Commission member Louis Frank Dominguez did not participate in the consideration of this matter.

Copies of this order were distributed to all appropriate persons on December 8, 2021.

It has been established that the Judge knew and allowed false facts to be deemed as truth and factual evidence. This cover up has violated judicial and ethical rules. Not only is this a gross misconduct of justice but a shameful execution of law. The judge willfully made it possible for these specifics to be omitted as if they never occurred and a father silenced after being persecuted for false charges and false claims to go unchecked and those guilty of perjury, contempt and misrepresentations of fact to be known as testimony. This demonstrates a gross use of power although I had proven that my parental and custodial rights were violated this information was omitted and suppressed to portray me as neglectful and irresponsible. Not once were any of my concerns for my children in the last decade seen or heard by the judge as she denied my motion to dependency, a motion for placement to take a due to attempts, and Mistrial. Demonstrating false facts of witness testimony, improper service of process and contempt of court on record; in short, the judge allowed case and lawyers to sabotage my case, and the Judge to allow under oath their of my daughters and utilize the courts power to attempt to break a fathers spirit emotionally. I cannot see a reason for such an individual that would allow Ethical and Judicial rules to be violated and allow discrimination, bias conduct to violate the code of law in what is suppose to be a lawful institution. I recognize what I am alleging and I am fully prepared to prove with recordings and pictures of what the truth actually IS to prove that I was judged unjustly. Any judge that allows this conduct, then allows a cover up to occur is an insult to our process of justice. I request that a full inquiry and mining of CHILDS be conducted; because, there is more information that continues to be omitted and suppressed to defend those guilty of this coverup and deny me my paternal rights of my daughters. The same way that I have stayed loyal and uncompromising of my faith to my daughters I will take this to the media if need be to show the gross injustice I have suffered and the turmoil my daughters and my step children were allowed to suffer: at the hands of their biological mother, because those in power discriminated and did not make the time to properly investigate without bias towards the father. I sincerely hope that my words are heard and those that have broken the law be held accountable for their actions towards myself, my children, my step children; otherwise this behavior will continue to condone and false facts destroying the moral

fiber of good parents in society that would risk everything just as I have to protect my children. Being poor is not a reason to take away my parental rights and nor is it a reason to hold me accountable for mother, placement and actions and false statements. It is a shame that I have had to endure this discrimination for so long: this should not be allowed to occur now or ever and sad that one must prove their innocence before ever being proven guilty. I have completed my case plan as per requirements and have yet to be given credit as such. But these same individuals would have the world believe I had only completed a case plan. This is the behavior that has been condoned by this judge to avoid having to explain false disclosure, false testimony, perjury, contempt, improper service of process and racial profiling because I am a that has served more than as a civilian soldier. The courts time, resources and funding were misused in this misguided persuit to slander and coverup said actions. I ask this commission conduct a review and report of this judge, her conduct and review of each violation of my rights as well as my childrens rights. I request that those accountable be held to a standard of accountability because they cannot claim nievity for their actions after a decade of continuous reporting neglect and abuse that was ignored. I thank you for this time and I sincerely hope this commission reinvigorates my faith in our judicial process and those responsible are held accountable.

Sincerely,
