

State of Arizona
COMMISSION ON JUDICIAL CONDUCT

Disposition of Complaint 22-040

Judge:

Complainant:

ORDER

October 13, 2022

The Complainant alleged a pro tem superior court judge improperly granted and upheld an injunction against harassment

The role of the Commission on Judicial Conduct is to impartially determine whether a judicial officer has engaged in conduct that violates the Arizona Code of Judicial Conduct or Article 6.1 of the Arizona Constitution. There must be clear and convincing evidence of such a violation in order for the Commission to take disciplinary action against a judicial officer.

The Commission does not have jurisdiction to overturn, amend, or remand a judicial officer's legal rulings. The Commission reviewed all relevant available information and concluded there was not clear and convincing evidence of ethical misconduct in this matter. The complaint is therefore dismissed pursuant to Commission Rules 16(a) and 23(a).

Commission member Colleen E. Concannon did not participate in the consideration of this matter.

Copies of this order were distributed to all appropriate persons on October 13, 2022.

Defendant:

I appreciate the Arizona Commission on judicial Conduct taking the precious time to investigate my charges and complaints against this particular Judge,

Court. I have included formal court papers on file along with a clear history of events. leading up to today, I do not wish to say anything that would take my words and actions within to be overly dramatic or frivolous, but from someone who has been an ethica

without a single complaint of misrepresentation or of any wrongdoing whatsoever, I submit I have run into one of the most abysmal, crooked, biased, and possibly criminal Judges one can imagine.

My and myself took a leap of faith in buying a house sight unseen in a town, we had never seen, sort of a fixer upper with some really appealing features and property. We were acclimating, except for the robust heat outside, when the home adjoining us, which had been for sale, was sold by a Realtor to a couple who had been looking for a place he could run an auto shop. This is a quiet subdivision with kids and families and quality of life. The realtor knew our property, peace, and health would be destroyed, but the lure of a double commission was too appealing and he left any pretense of ethics at the bank, knowing the catastrophe

he was leaving in his wake. The new neighbor, a younger a noble
profession except this was not a noble neighbor. He was a thug from day one.
One which incorrect date he filled out on
the order of protection against harassment that Judge quickly signed,
with no proof, except for these two liars writing I went over, after finding out
from , home alone, that this neighbor, had revved up
a vehicle right next to our open window and for straight minutes, knowing
 was in the house, intentionally caused bilious huge clouds of noxious
exhaust fumes into the home until I almost actually passed out and choked
until she regained her equilibrium enough to close the windows and turn on the
fans, the smoke still drifting in the older home. finally went outside and
asked what he was doing, that he almost killed her. His answer was that the
realtor told him "there was no and he "was running an auto shop". He then
gave her a feral, hateful look she said terrified her and walked off. She called me
and I stopped at their house to try to calm things down and find out what was the
situation. I had never met either of them. I was unarmed and friendly. I did get the
same reply from "that he was running an auto shop here". I told them calmly
I would legally try to have that shut down, as this was a disaster to our property,
health, and investment. demeanor was eerie and I felt somewhat in fear for
my safety, so after a few words of small talk with the co-owner
girlfriend, I left. Over a month later I am served with the Order of Protection
against Harassment which had written I had stated that day, "this is how
neighbors get shot, would you guys like to get shot". This was a complete fabricated
lie. There were no threats. Later we learned he was friends and maybe business
associates of Deputies, At least Deputies and
 who seemed to run interference for him on any of our calls and complaints.
They would not charge or arrest him, or even warn him, and we realized we were
paying taxes for law enforcement that was useless, we had no due process or
rights, or protection and the Judge who knew all this from court proceedings,
cared less, ignored these facts and treated like he kid you bring to court on
"bring your kid to work day". He even allowed to question ignoring my
objections that was on a complete debacle bombarding with questions
about her comments and interactions with people I was aware of but had

never even spoke to or encountered. The judge never once in the two parts of the hearings, acknowledged or sympathized with the attacks by by weaponizing his vehicle exhaust fumes against or myself, never admonished, warned or even mentioned it. He cared less. Everyone in the County knew had sought, and the Judge merrily complied, admittedly, again, with the assistance and council of the Deputies, to get a Order of Prrotection to prevent and I from bringing criminal charges against him and to stop my efforts through the County to shut down his noxious, illegal business the County was too busy it seemed to spend time on without incentive from an adjacent interested party, and myself. The Judge was almost deficient and complicit in not seeing in bright neon lights, an obvious fabricated lie and distraction to silence a witness.

Shockingly, as of today, what the Judge has accomplished, and after observing this Judge I have no doubt it is not by accident or normal by-product, has basically put targets, free if you will, on the backs of and myself. He has published openly, the incredible unproven and falsely conjured notice that I am a threat to human life, and therefore, by the plaintiffs, sherriffs deputies, or anyone, we could be shot and killed, in "self defense" without a peep, or be arrested and jailed on felony charges just by the statements (lies) of plaintiffs or otrhers. I think the Judge has orchestrated this scenario. He may be mentally unstable. I have also felt, perhaps because of my even after years out West, I may be a religion or ethnicity he does not care for, and I have only heard local rumors to that, and that like the Judge is long time family in the area and there is prejudice from this very interlated old community to "outsiders". I can tell you from day one this Judge bears a worrisome dislike and contempt for both and myself and has ventured verbally once, "maybe it's a cultural difference". Well, almost getting intentionally and premeditated asphyxiated to death is not "cultural difference" I have lived all over, met all kinds of people, but this Judge, obviously crooked and possibly lethal due to his decisions and orchestrated life and freedom mechanisms that must be objectively scrutinized, putting your very life, freedom or death in the hands of the most obvious of enemies that would most wish you harm. I plea on behalf of

both of us for you move timely and forcefully to remove this misplaced unethical
and dangerous judge from our great U.S. justice System County Az.
