

State of Arizona
COMMISSION ON JUDICIAL CONDUCT

Disposition of Complaint 23-090

Judge:

Complainant:

ORDER

September 15, 2023

The complainant alleged improper legal rulings by a superior court commissioner hearing a probate case.

The role of the Commission on Judicial Conduct is to impartially determine whether a judicial officer has engaged in conduct that violates the Arizona Code of Judicial Conduct or Article 6.1 of the Arizona Constitution. There must be clear and convincing evidence of such a violation in order for the Commission to take disciplinary action against a judicial officer.

The Commission does not have jurisdiction to overturn, amend, or remand a judicial officer's legal rulings. The Commission reviewed all relevant available information and concluded there was not clear and convincing evidence of ethical misconduct in this matter. The complaint is therefore dismissed pursuant to Commission Rules 16(a) and 23(a).

Commission member Barbara Brown did not participate in the consideration of this matter.

Copies of this order were distributed to all appropriate persons on September 15, 2023.

COMP

2023-090

I am currently a Defendant fighting inpatient hospitalization of unknown duration and forced drugging with the wrong prescriptions due to a misdiagnosis performed by

and Hospital (where you have a courtroom). My interactions with

is part of a larger, comprehensive investigation that I, the

and other U.S. agencies are involved in.

What I, and others, have found using witnesses and U.S. surveillance equipment with regard

to is a reluctance, almost absolute abstinence when it comes to consideration of

any opposition to Plaintiff/Petitioner(s) side. I informed and Judge

of possibilities surrounding foreign government actors investigated/prosecuted by

the speech/speech patterns/word choices were indicative of someone who doesn't appear to be an actual legal representative and I am

including notes that I hurriedly jotted down during my hearing last week. My fear is that Judge actions/determinations/decisions are politically motivated not based on any real medical evidence.
Thank you.
