

State of Arizona
COMMISSION ON JUDICIAL CONDUCT

Disposition of Complaint 23-277

Judge:

Complainant:

ORDER

October 24, 2023

The Complainant alleged a justice of the peace was biased in his rulings in a traffic case.

The role of the Commission on Judicial Conduct is to impartially determine whether a judicial officer has engaged in conduct that violates the Arizona Code of Judicial Conduct or Article 6.1 of the Arizona Constitution. There must be clear and convincing evidence of such a violation in order for the Commission to take disciplinary action against a judicial officer.

The Commission does not have jurisdiction to overturn, amend, or remand a judicial officer's legal rulings. The Commission reviewed all relevant available information and concluded there was not clear and convincing evidence of ethical misconduct in this matter. The complaint is therefore dismissed pursuant to Commission Rules 16(a) and 23(a).

Commission members Barbara Brown and Christopher P. Staring did not participate in the consideration of this matter.

Copies of this order were distributed to all appropriate persons on October 24, 2023.

On judge made a hostile environment in the court by being an impartial judge and not wanting to hear any situations he turned it into a confrontation which was very unprofessional telling me that I was trying to tell him how to run his business and that is what's wrong with this court system you guys are exactly operating it like it's a business it is not for justice that is exactly why no matter what the judge says it is never forgotten about once you fulfill doing the situation as an example a judge can award you years probation fine and days in jail you go and do the fine you do the days in jail and everything that is complied by then this situation is supposed to be dismissed because that was supposed to be to make right for your wrongdoing that is set for but it's not supposed to go on your background years or even a year later for it that is not you letting it drop as the court system that's one of the first things and the Constitution says I'm entitled to a fair unbiased Court when you go in with the attitude such as having your guilty from minute one and putting it a hostile environment this can't happen next of all this is kind of a b***** case when they can't answer your plead as stated you direct people how we have to plead in all situations are not right wrong or not it's like an example there is no such thing as guilty not guilty no contents on every situation out there you need to take the blindfold off a Lady Justice that law says I have up to hours and then I have hours to have it moved I was doing within compliance and this is not something that you know the courts are enforcing on all parties in the world and the laws and the rules here's an example when I walked miles home there was over cars that passed me there was not one person stopped to see if I needed a ride there was cars on the side of the road in that distance that there was nobody around sitting on the side of the highways I didn't see their car getting

towed right away I didn't see those owners going to jail for it so this is not law when I thought I'd stay complaint with in regards to the office the store some items from me first of all like in cash a credit card for fuel that was never turned in with my stuff I'm declined to even do a police report I'm told by his department that he's only following policy the officer also was typing on the computer as he was driving down the road at an obsessed driving amount of miles an hour the courts refused to do a complaint and so did the and as clearly indicates in a commercial vehicle it says a commercial vehicle is placard on all sides a squad cars placard on all sides it's doing noted that it's a commercial vehicle it is also duly noted that his squad car is used to transport passengers or goods it's classified as vehicle homicide as your ARS law says that operating a vehicle with faster than miles over the speed limit with a passenger is classified as vehicle homicide which I've been told by your court system was a class 2 misdemeanor felony no on the truck that I was driving at the time it was a big one time pulling a trailer a foot trailer hauling a car that broke down that I just got out of the shop I didn't even have miles on it you think I was happy about this no and then to have my truck towed back to where I had just started cleaning up an accident prior to that this judge has no business being a judge on the bench if he's a hostile sob I have asked the courts for a dismissal and emotion that one of the other judges I was told denied the motion but it was not provided a reason why it was denied at the time your system talks all this b***** legal s*** and then they do not comply with the rules of their own it clearly says in the Arizona law statues that information is denied there has to be a reason given at the time of the denial your court system is doing nothing but railroading me blackballing me and the whole nine yards just like the department of judicial conduct

A description in your own words what you believe the judge did that constitutes misconduct. This description needs to be specific and list all of the names, dates, times, and places that will help the commission understand your concerns. For example, you stated that the judge made a courtroom “a hostile environment and unreasonable.” This is too generic of a statement. Please provide specific details on how the judge made the courtroom a hostile environment and made it unreasonable. If specific statements were made by the judge, you should list those as well as the date(s) of the hearings.

If you submit an email with this information, we can process the email as a complaint.

One more thing to my email I was told that when I go in front of the judge is the time and place to discuss matters calmly well when you have the attitude that now's not the place is what the judge openly admits say it when is the place and when is the time that's a hostile attitude he's an impartial judge
