THE PUBLIC FUNDS RISK MANAGEMENT)
ADR PROJECT)
_____)

Administrative Order
No. 95- 41

On July 2, 1992, by Administrative Order No. 92-19, the Court established a pilot project known as the Public Funds Risk Management ADR Project. The project involved identification of one hundred cases that could potentially be settled through intervention and settlement conferences. Nearly one hundred cases have been identified, and those administering the project have requested that they be permitted to include new cases in the project until such time as the project report has been presented to the Arizona Judicial Council and the Supreme Court has acted to formally adopt or discontinue the project. Good cause having been shown,

IT IS ORDERED that the Public Funds Risk Management ADR Project may be expanded to include more than the one hundred cases authorized in Administrative Order No. 92-19. The project shall continue to operate for an additional six months from the date of this order or until such time as the project report has been presented to the Arizona Judicial Council and the Supreme Court has acted to formally adopt or discontinue the project, whichever event occurs first.

Dated this 25th day of July, 1995.
